

DMX Machine Distribution Opportunity

Perfect for Orthopedic Clinics - Offers unparalleled imaging for diagnosing ligament injuries, improving patient outcomes, and increasing clinic revenue.

National Distributor Slots Now Open

Why DMX?

The DMX (Digital Motion X-Ray) system is revolutionizing injury detection and diagnosis. Unlike traditional imaging methods, DMX captures real-time motion, making it a game-changer for orthopedic clinics, chiropractors, and spine specialists.

Detects ligament injuries missed by MRI, CT, or static X-rays

Non-invasive, real-time imaging

Used successfully across leading clinics in the U.S. and Canada

Backed by digital product knowledge and online training resources

"DMX identifies what static X-rays and MRIs cannot. That's the power of seeing motion in real-time."

Next Steps to Become a DMX Distributor

1. Get Started:

We can begin your distribution agreement immediately - ready to sell? Let's go.

2. Digital Training:

All product knowledge is online. Learn fast, sell fast. Visit DMX Training Resources to start learning and equipping your team.

3. National Opportunity:

DMX distribution is currently open nationally.

After 60 days, distributor performance will be evaluated for potential exclusivity.

Target Goal:

Aim to sell 10+ units/month to establish your territory and credibility. Distributors typically earn strong margins per unit, with potential to generate \$25,000-\$40,000 in monthly revenue depending on volume and territory size.

Let's take the next step together.
