

# ALCHEME

## PEPTIDES

- Trusted by researchers and professionals, we deliver industry-leading products backed by innovation, integrity, and precision. When it comes to peptides, trust the name that stands for excellence, transparency, and scientific integrity
- We are committed to setting the standard in peptide excellence. Manufactured in our state-of-the-art laboratories, 503A, or 503B pharmacies, our peptides are formulated with the highest purity and rigorous quality assurance to ensure unmatched consistency and reliability
- Below you will find just some of the peptides we offer and in just some of the formulations
- Custom formulations are possible as is "white labeling" for your needs

# SEMAGLUTIDE

---

Known Brand: Ozempic, WeGovy

---

Intended Use: Weight loss, type-2 diabetes

---

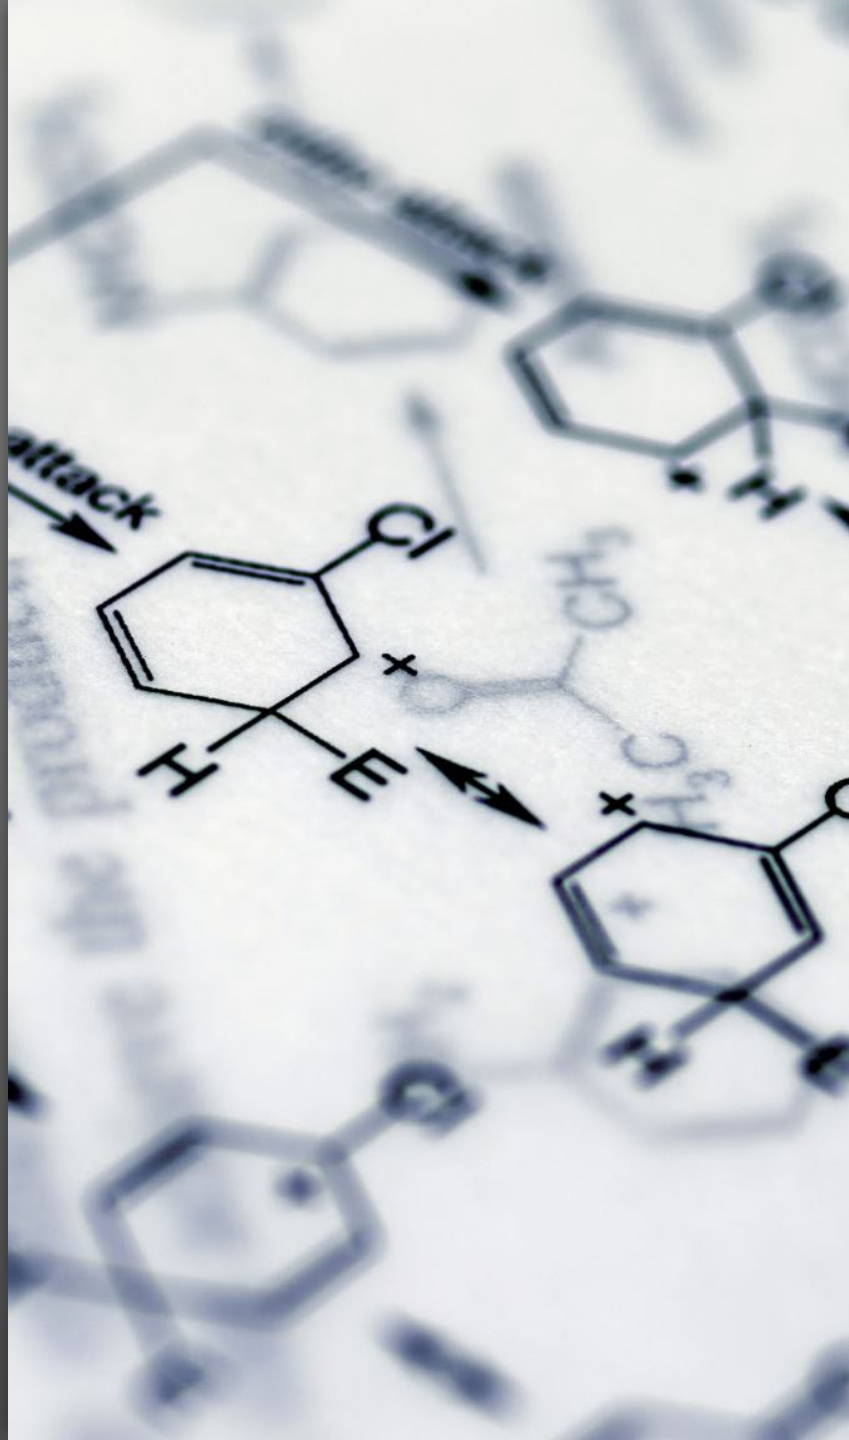

Primary Benefits: Enhances insulin secretion, reduces appetite and supports substantial weight reduction

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg, 15mg, 20mg, 25mg, 30mg, and Custom Weights

# TIRZEPATIDE

---

Known Brand: Mounjaro, Zepbound

---

Intended Use: Weight loss, type-2 diabetes

---

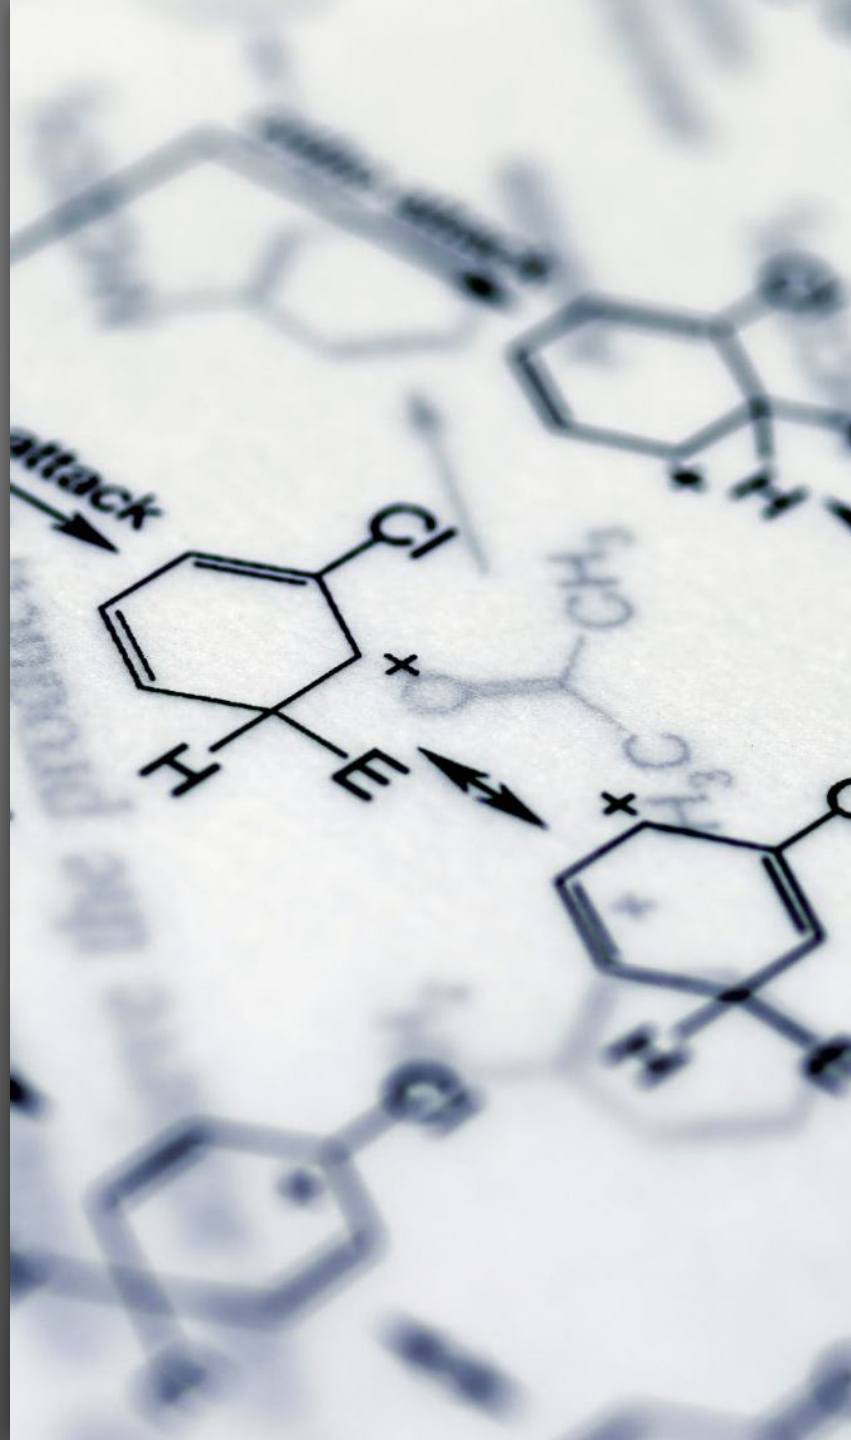

Primary Benefits: Dual GIP/GLP-1 agonist delivering superior glycemic control and body-weight reduction

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 10mg, 20mg, 30mg, 40mg, 50mg, 60mg, and Custom Weights

# RETATRUTIDE

---

Known Brand: N/A

---

Intended Use: Obesity, metabolic health

---

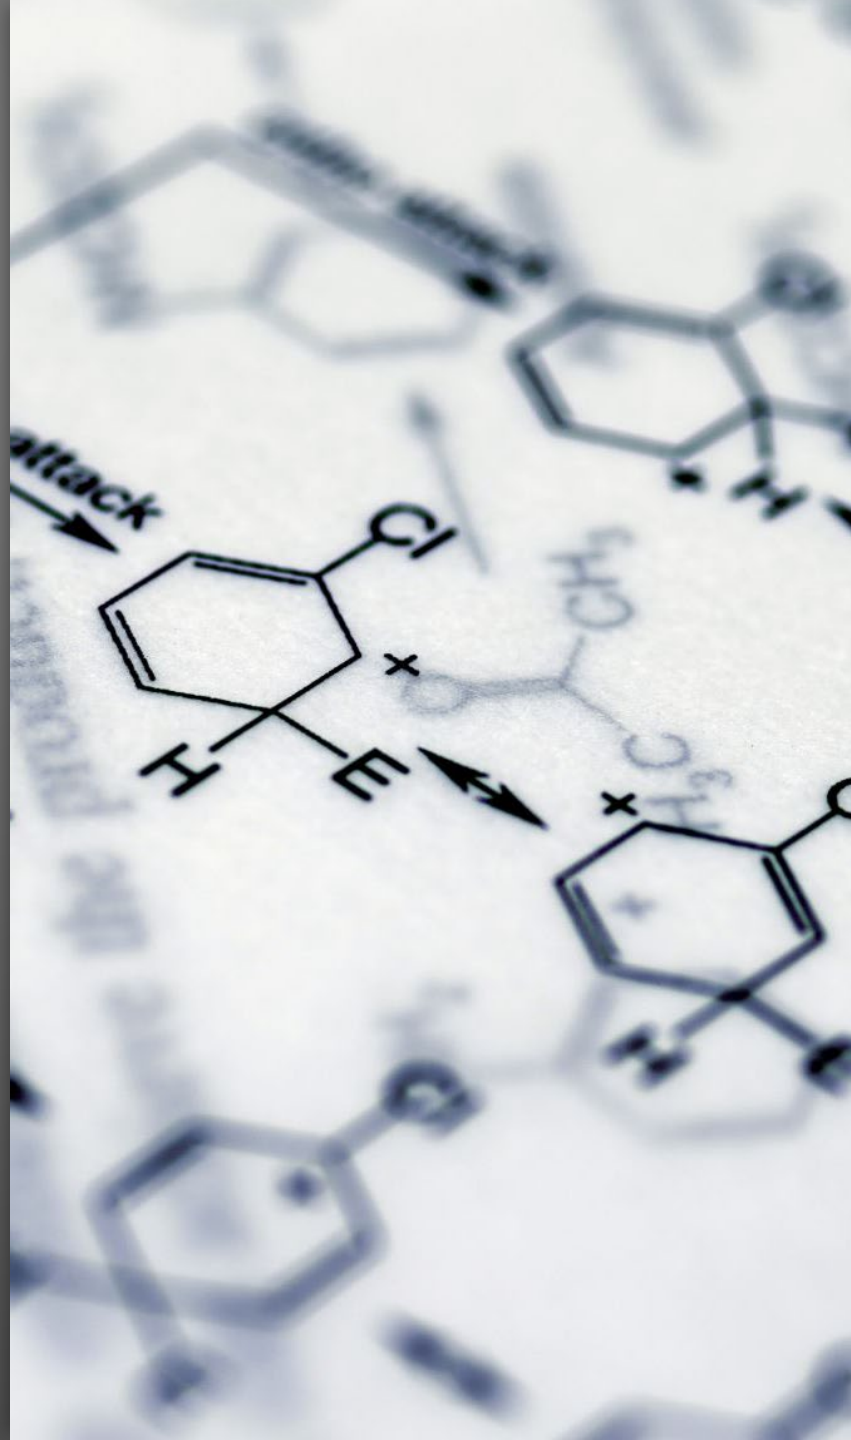

Primary Benefits: Triple GIP/GLP-1/GCGR agonist showing significant fat-mass loss and glucose improvement in trials

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# SURVODUTIDE

---

Known Brand: N/A

---

Intended Use: Obesity, NASH

---

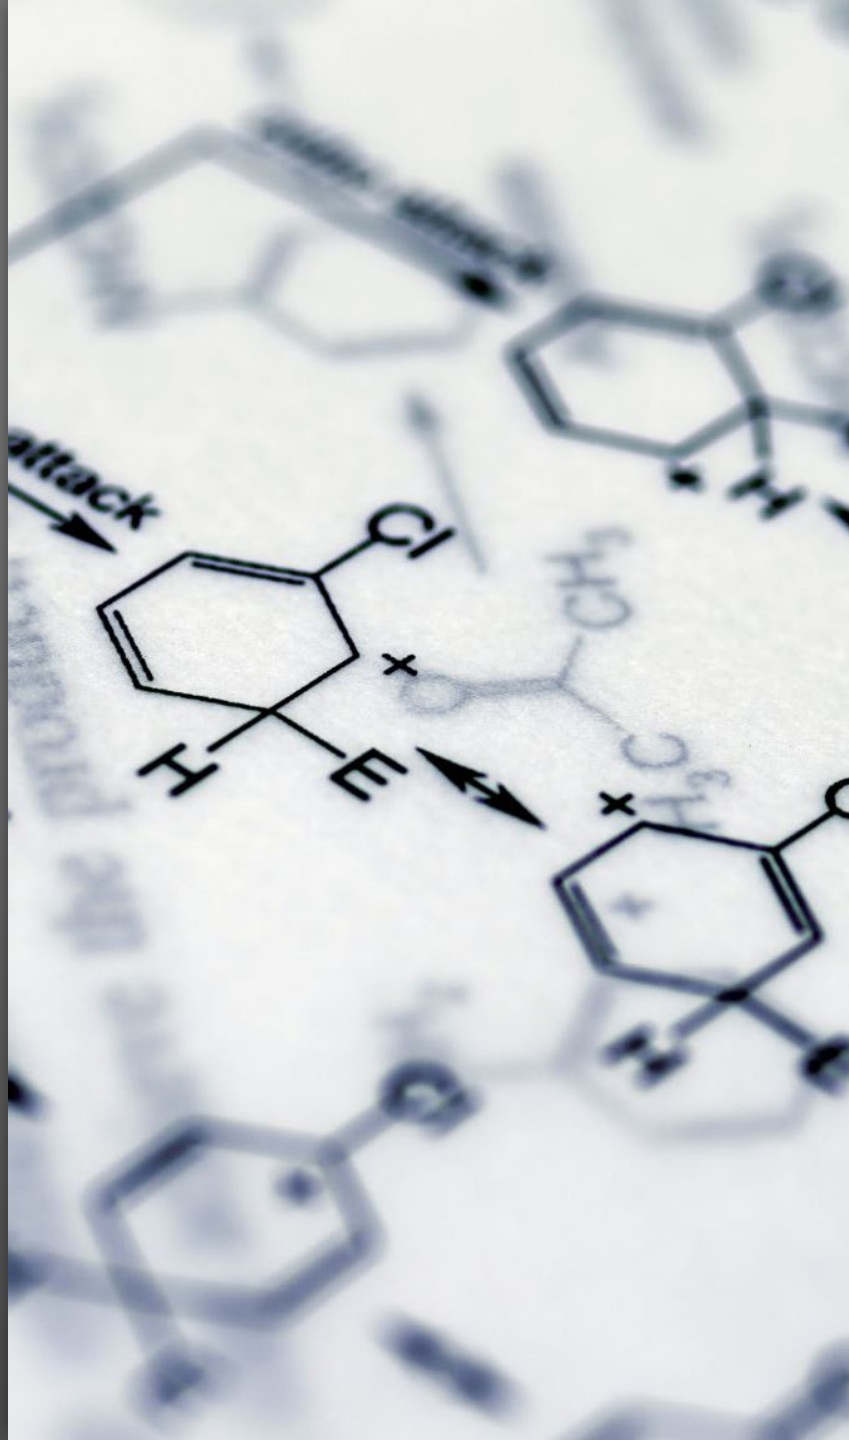

Primary Benefits: Dual GLP-1/GCGR agonist under study for substantial weight loss and liver-fat reduction

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 6mg

# BPC 157

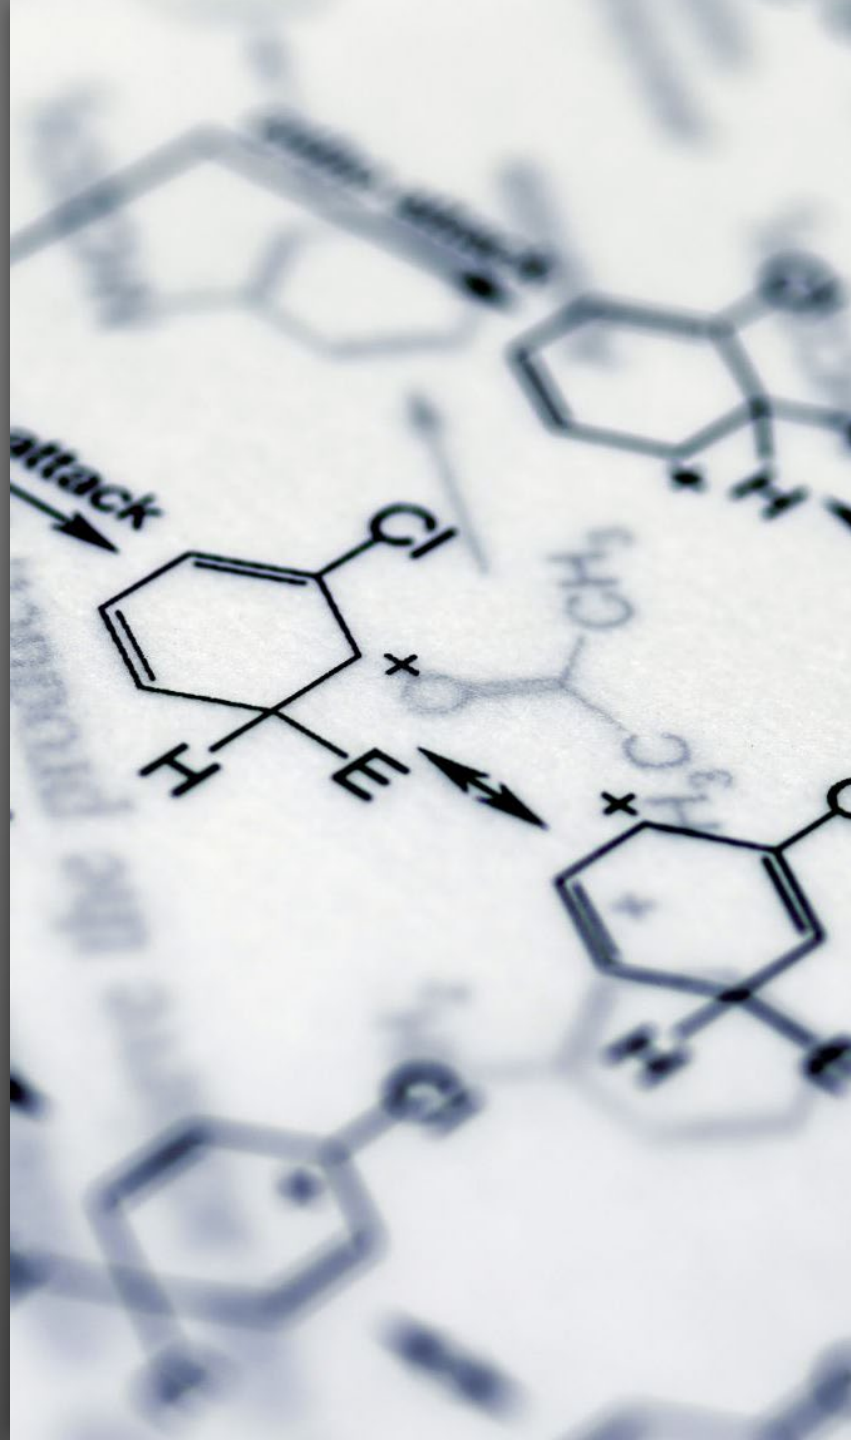

Known Brand: Body Protective Compound

Intended Use: Tissue repair, gut health

Primary Benefits: Accelerates healing of muscles, tendons and GI tract while reducing inflammation

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

Weights: 5mg, 10mg

# THYMOSIN ALPHA 1

---

Known Brand: Zadaxin

---

Intended Use: Immune enhancement

---

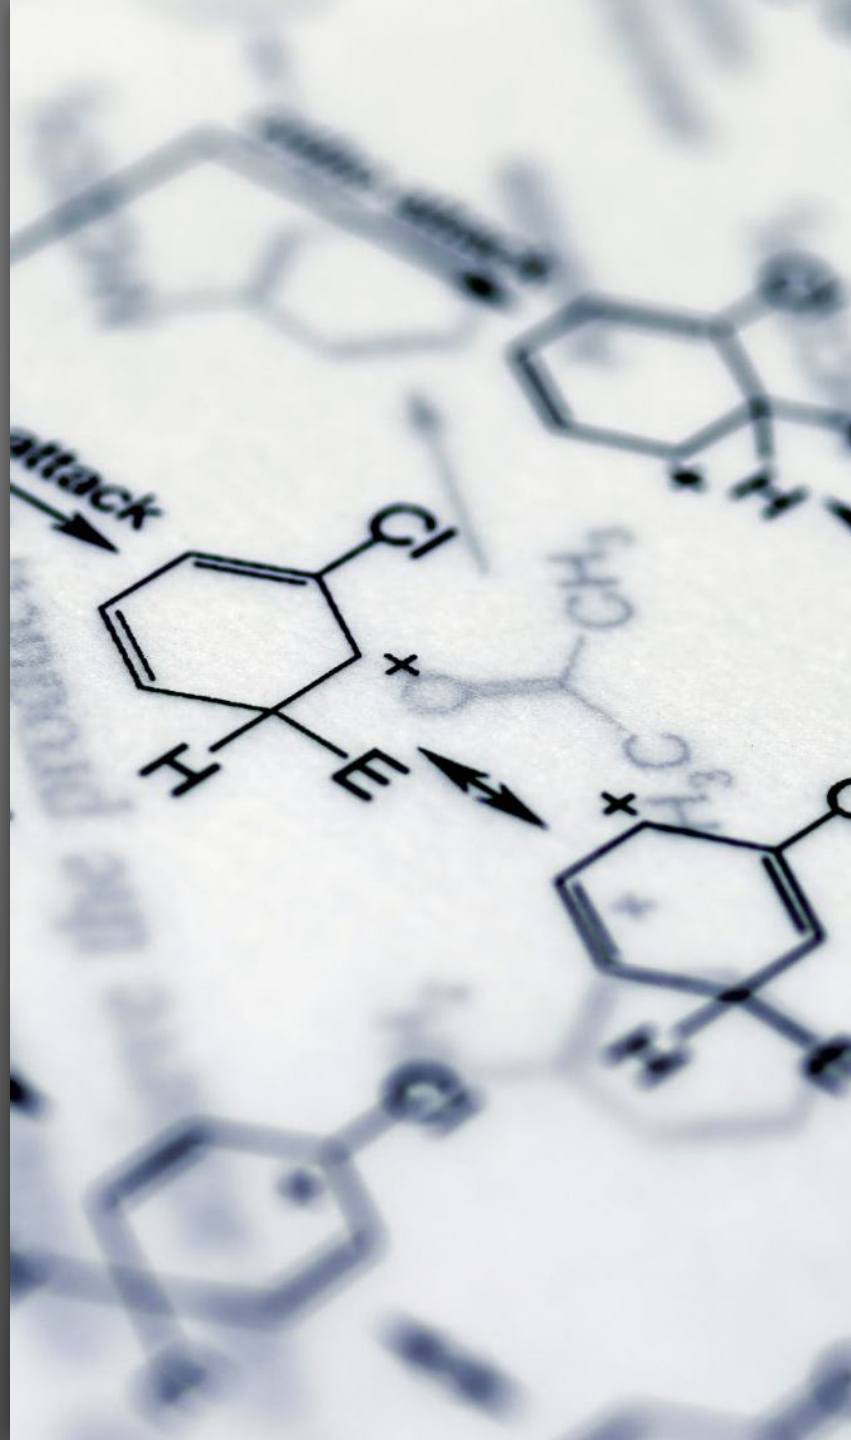

Primary Benefits: Modulates innate & adaptive immunity, used as adjuvant in viral & oncologic therapy

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# THYMOSIN BETA-4

---

Known Brand: TB-500

---

Intended Use: Wound repair, recovery

---

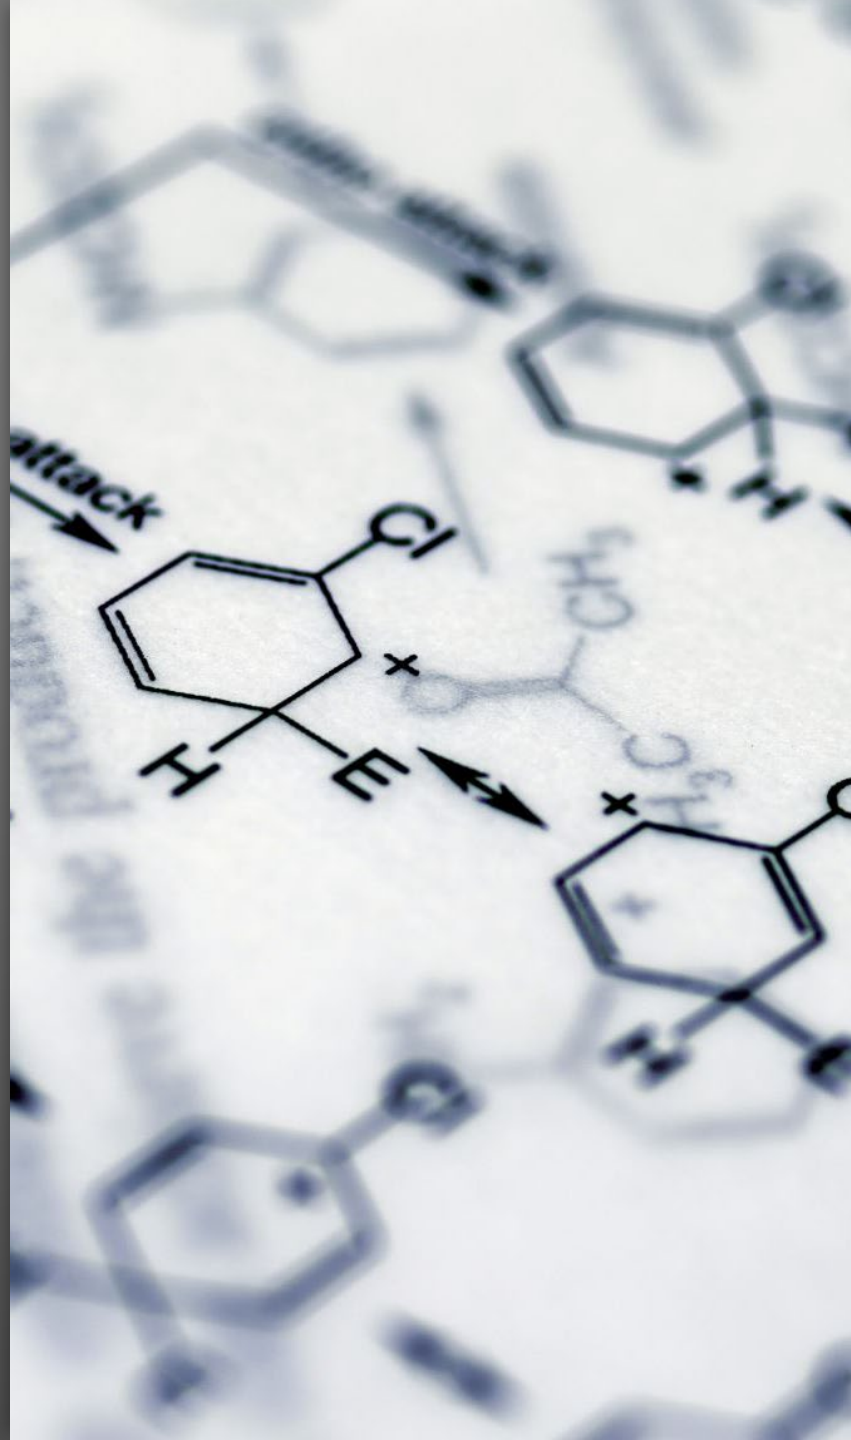

Primary Benefits: Enhances cell migration and angiogenesis to speed healing and reduce inflammation

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 1mg, 2mg, 5mg, 10mg, 25mg

# CJC 1295

---

Known Brand: N/A

---

Intended Use: Growth hormone stimulation

---

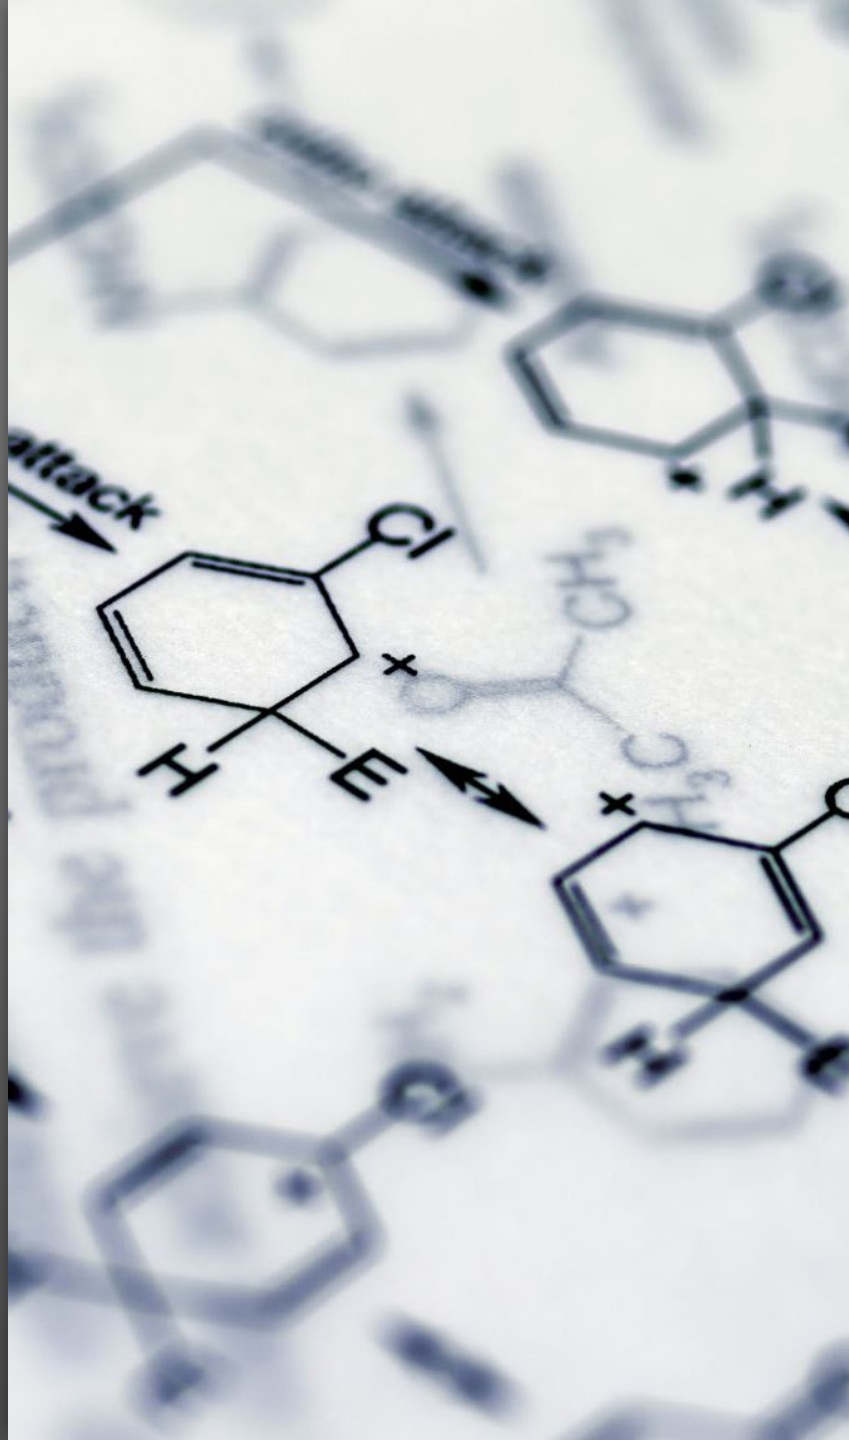

Primary Benefits: Stimulates GH/IGF-1 axis for lean muscle gain, fat reduction and improved recovery

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 5mg

# CJC 1295 W/ DAC

---

Known Brand: N/A

---

Intended Use: Growth hormone stimulation

---

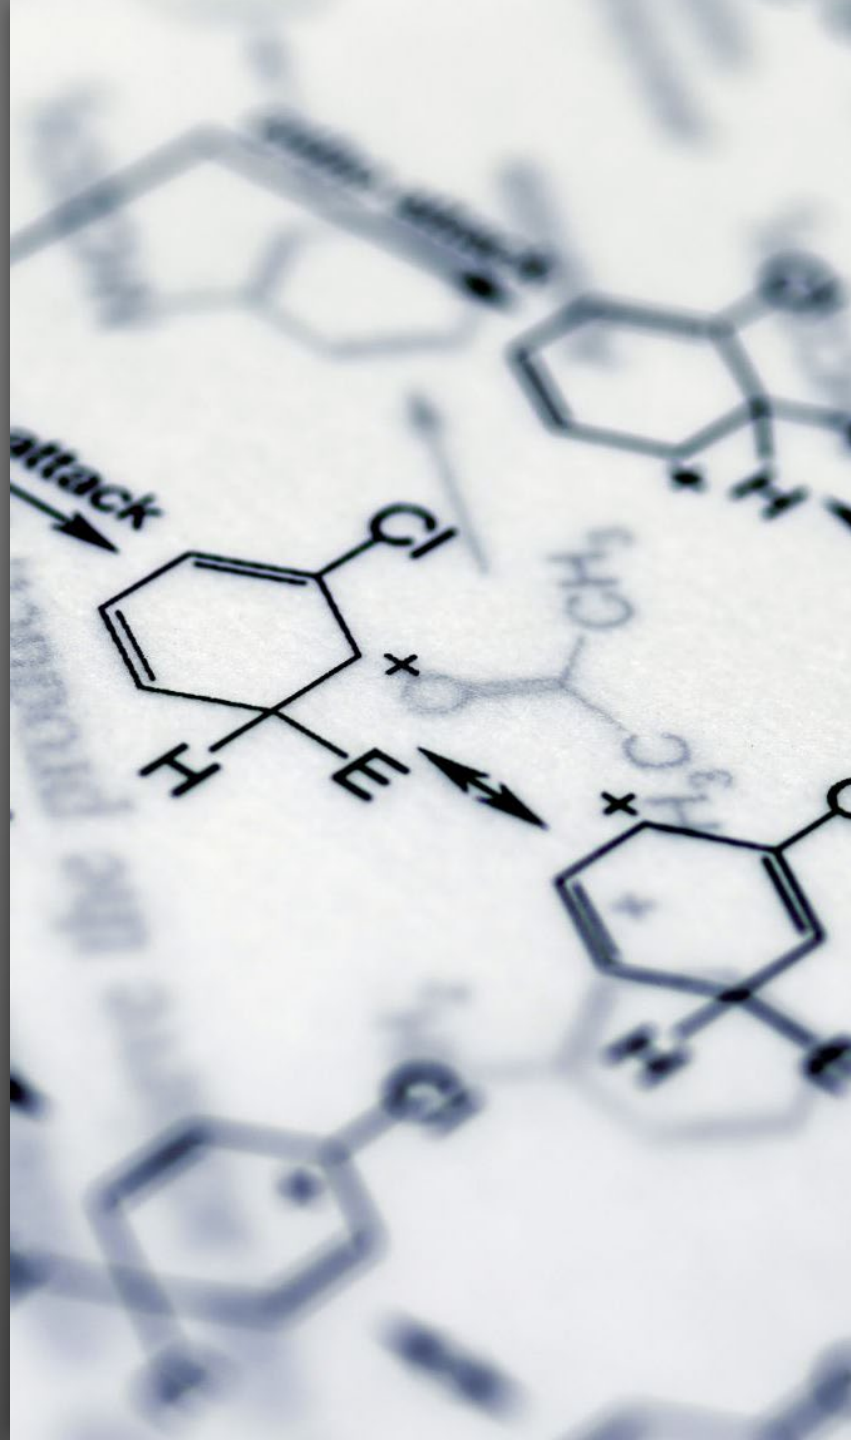

Primary Benefits: Prolonged GH release promoting muscle growth, fat loss and anti-aging benefits

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# NAD +

---

Known Brand: N/A

---

Intended Use: Cellular energy, anti-aging

---

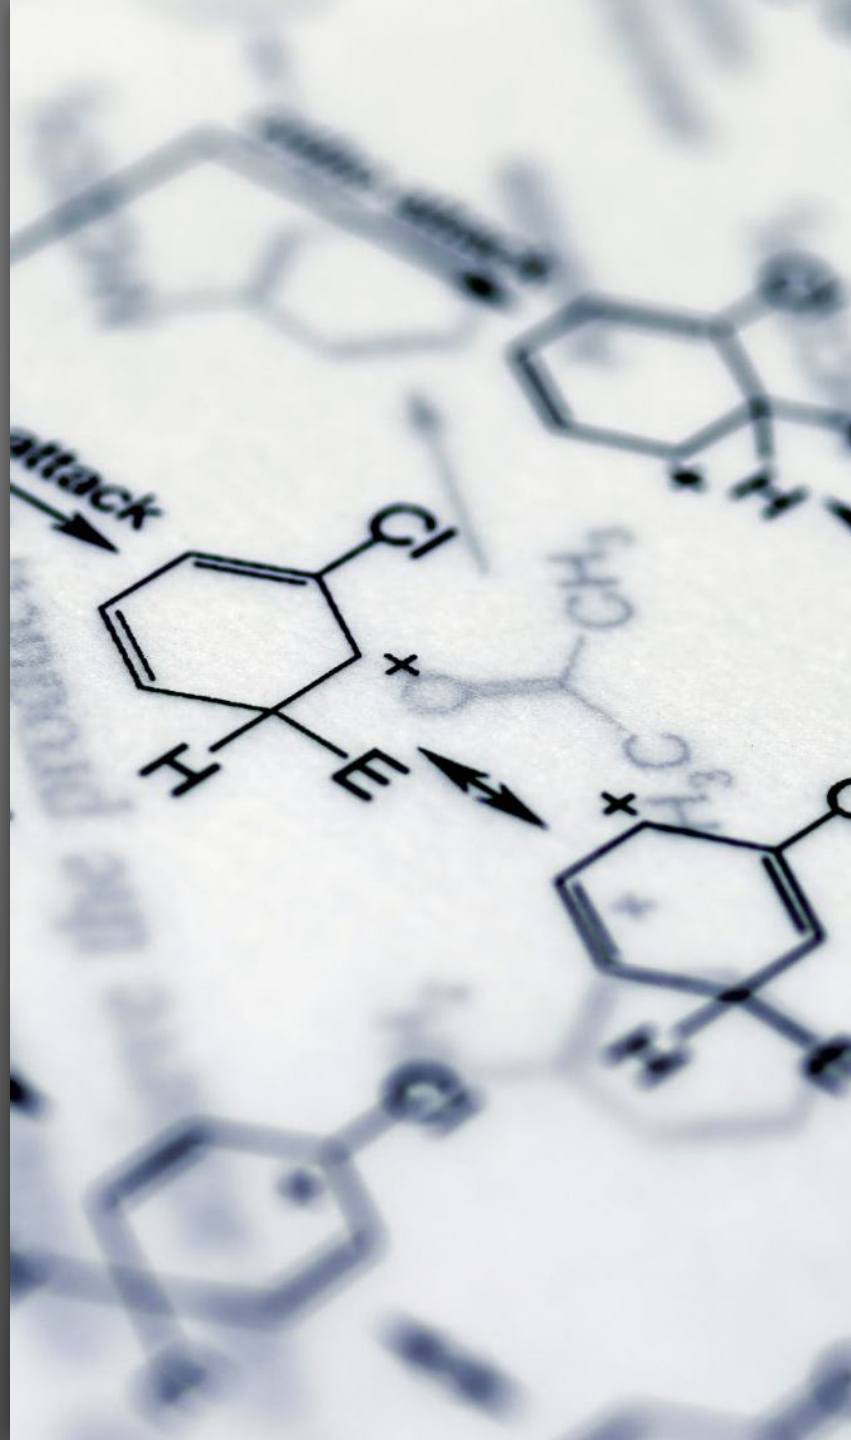

Primary Benefits: Elevates NAD+ levels, improving mitochondrial function, cognition and metabolic health

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 500mg, 1000mg

# PT-141

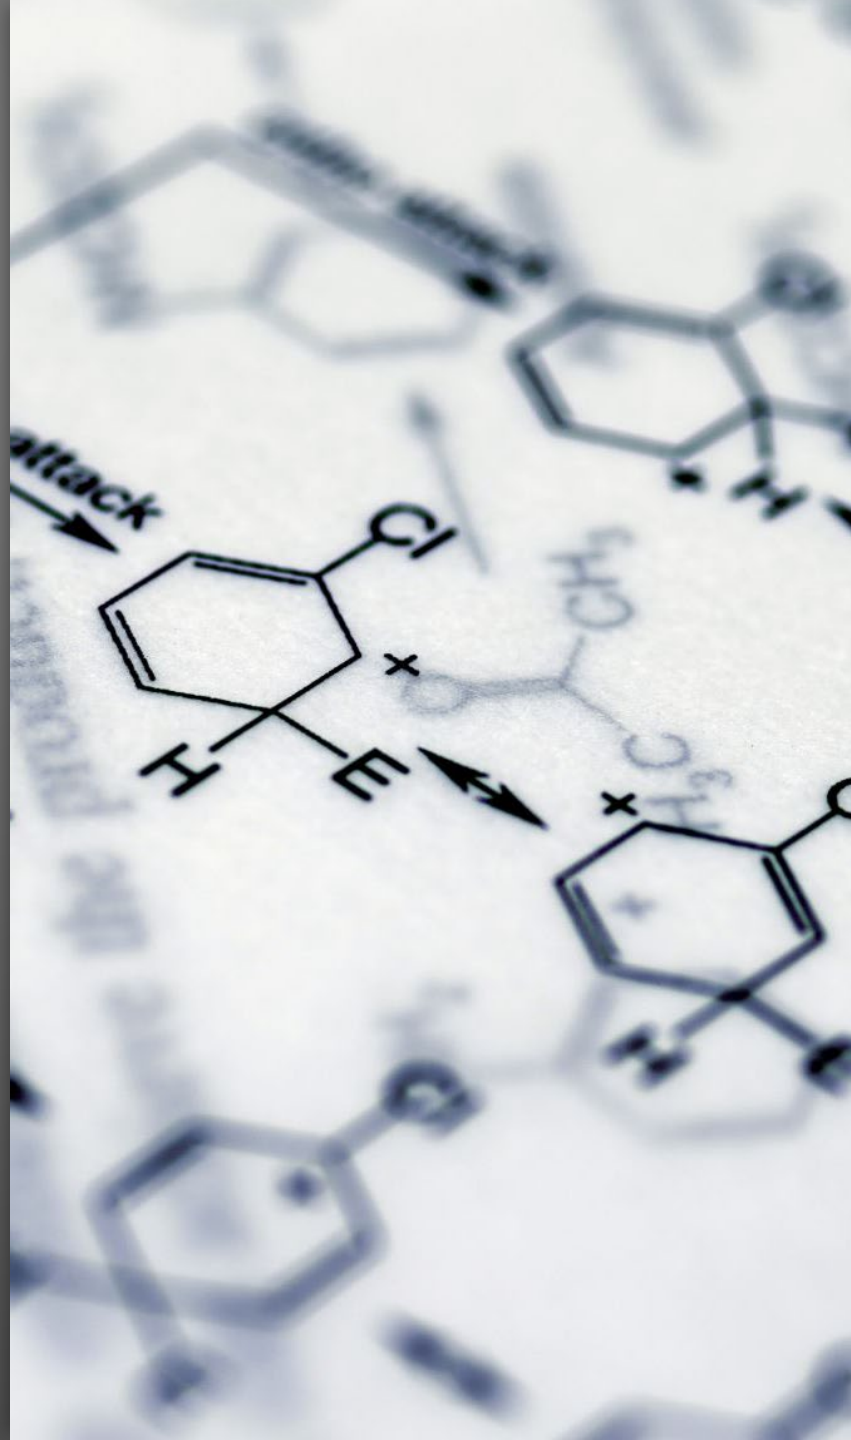

Known Brand: Vyleesi

Intended Use: Sexual dysfunction

Primary Benefits: Activates MC-4 receptors to enhance libido and arousal in both men and women

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

Weights: 5mg, 10mg

# IPAMORELIN

---

Known Brand: N/A

---

Intended Use: Growth hormone stimulation

---

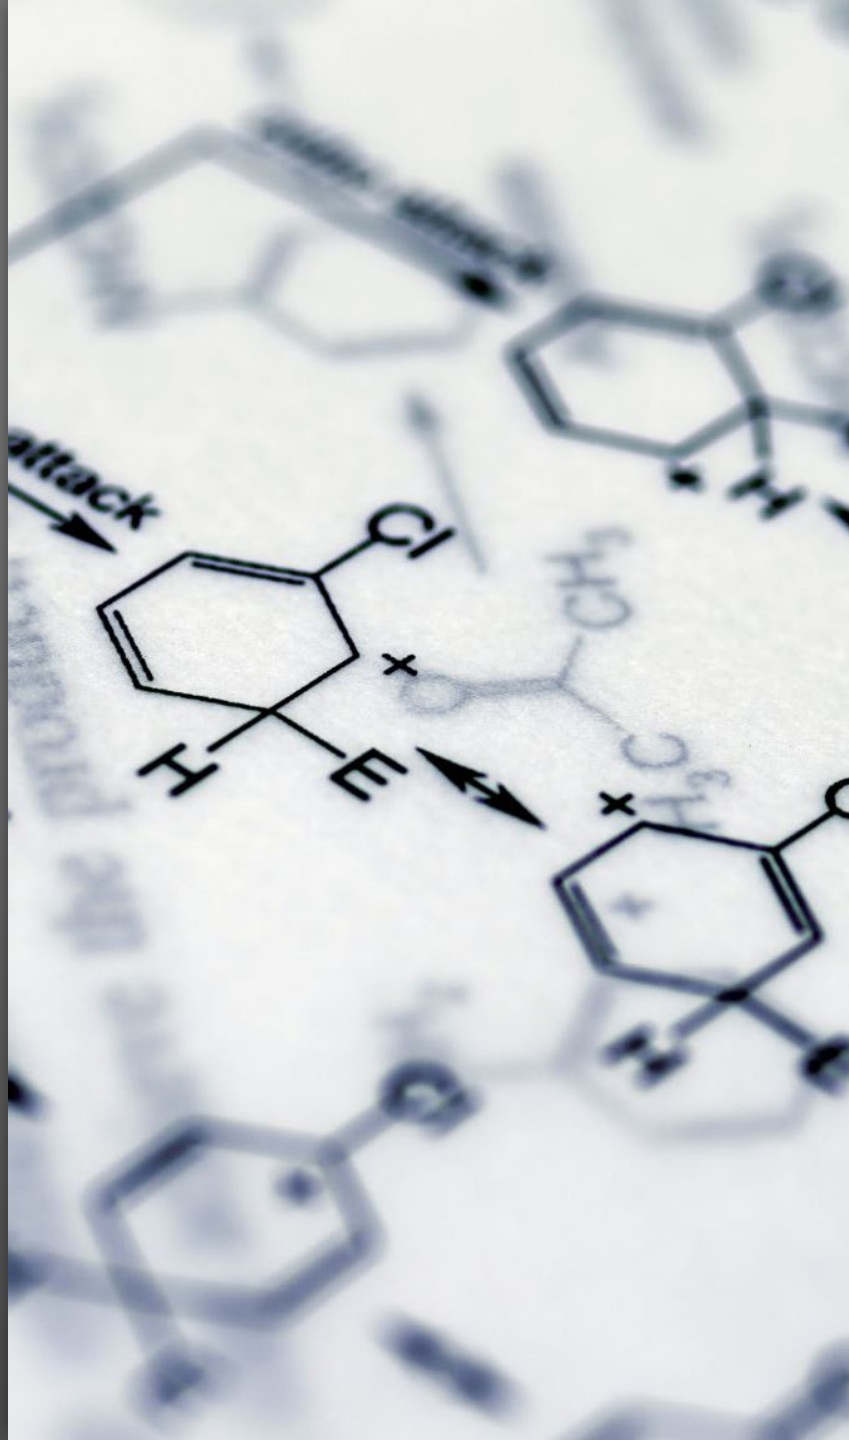

Primary Benefits: Selective GH release with minimal prolactin/cortisol impact—ideal for muscle gain & fat loss

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 10mg

# TESAMORELIN

---

Known Brand: Egrifta

---

Intended Use: Visceral fat reduction, GH deficiency

---

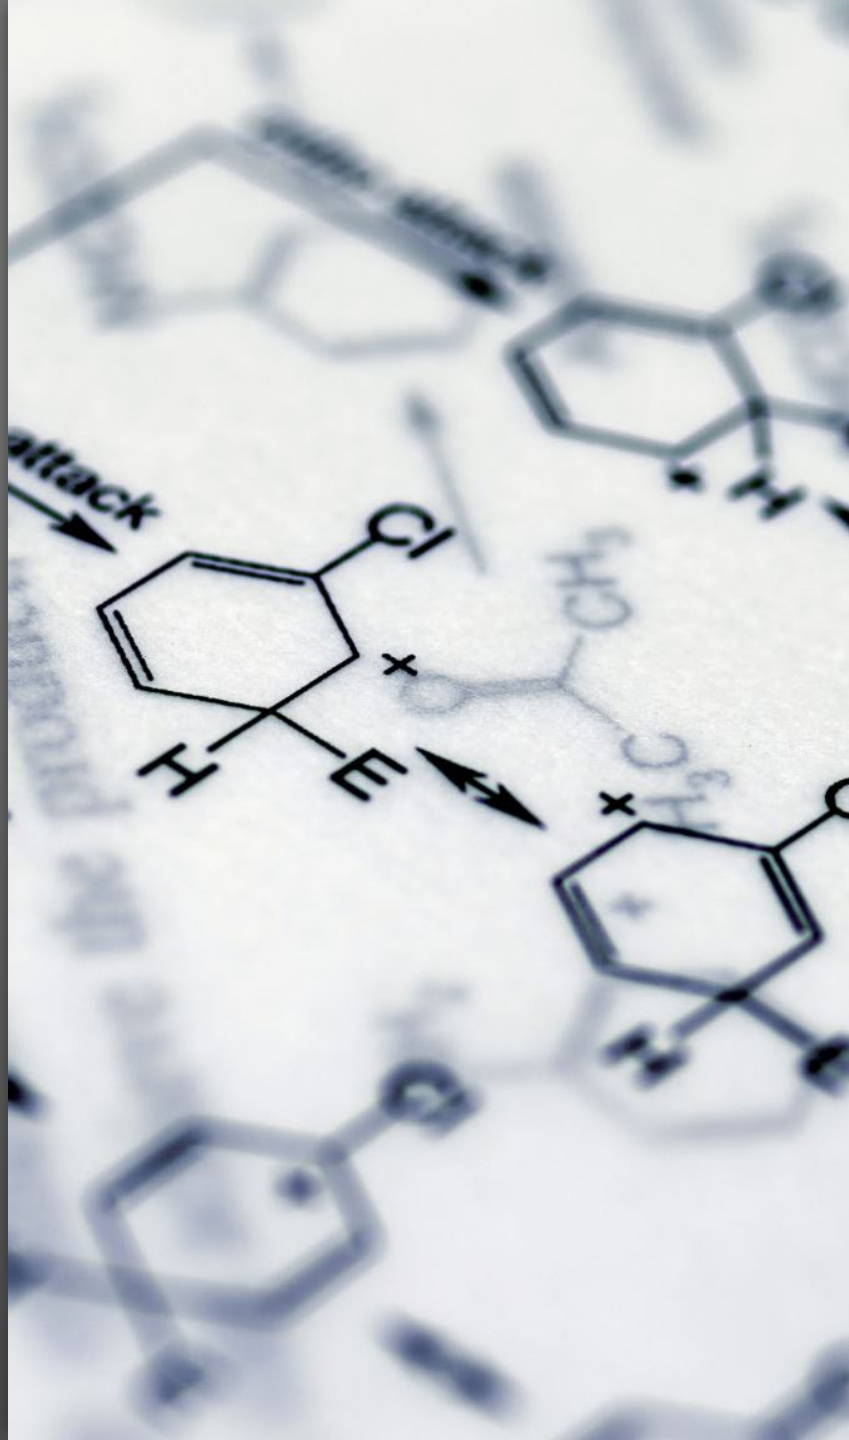

Primary Benefits: Boosts endogenous GH, decreasing abdominal fat and improving body composition

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# MELANOTAN 2

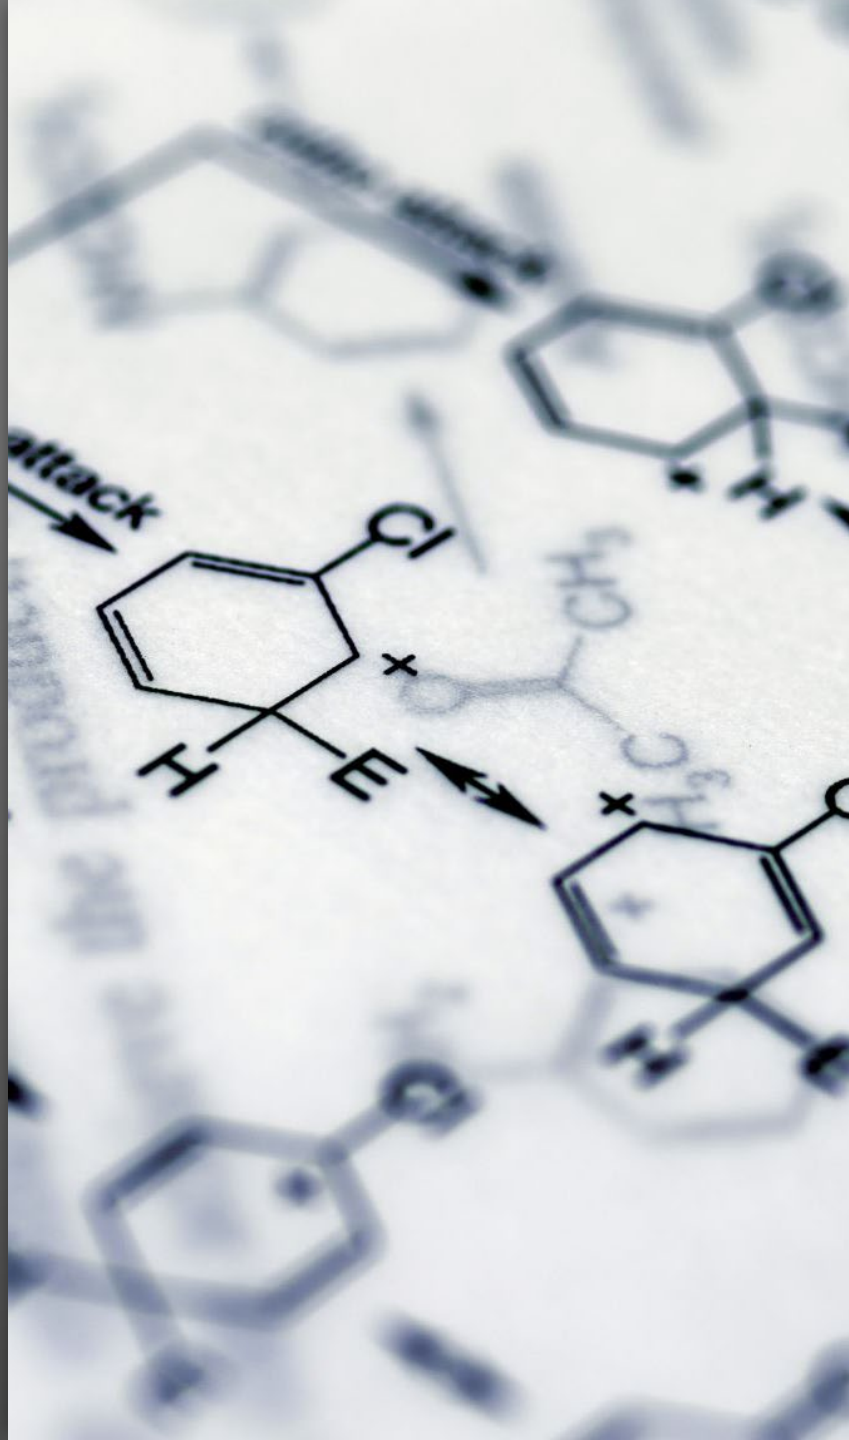

Known Brand: N/A

Intended Use: Skin tanning, libido

Primary Benefits: Stimulates melanin production for deeper pigmentation and may increase sexual desire

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

Weight: 10mg

# THYMOGEN

---

Known Brand: N/A

---

Intended Use: Immune modulation

---

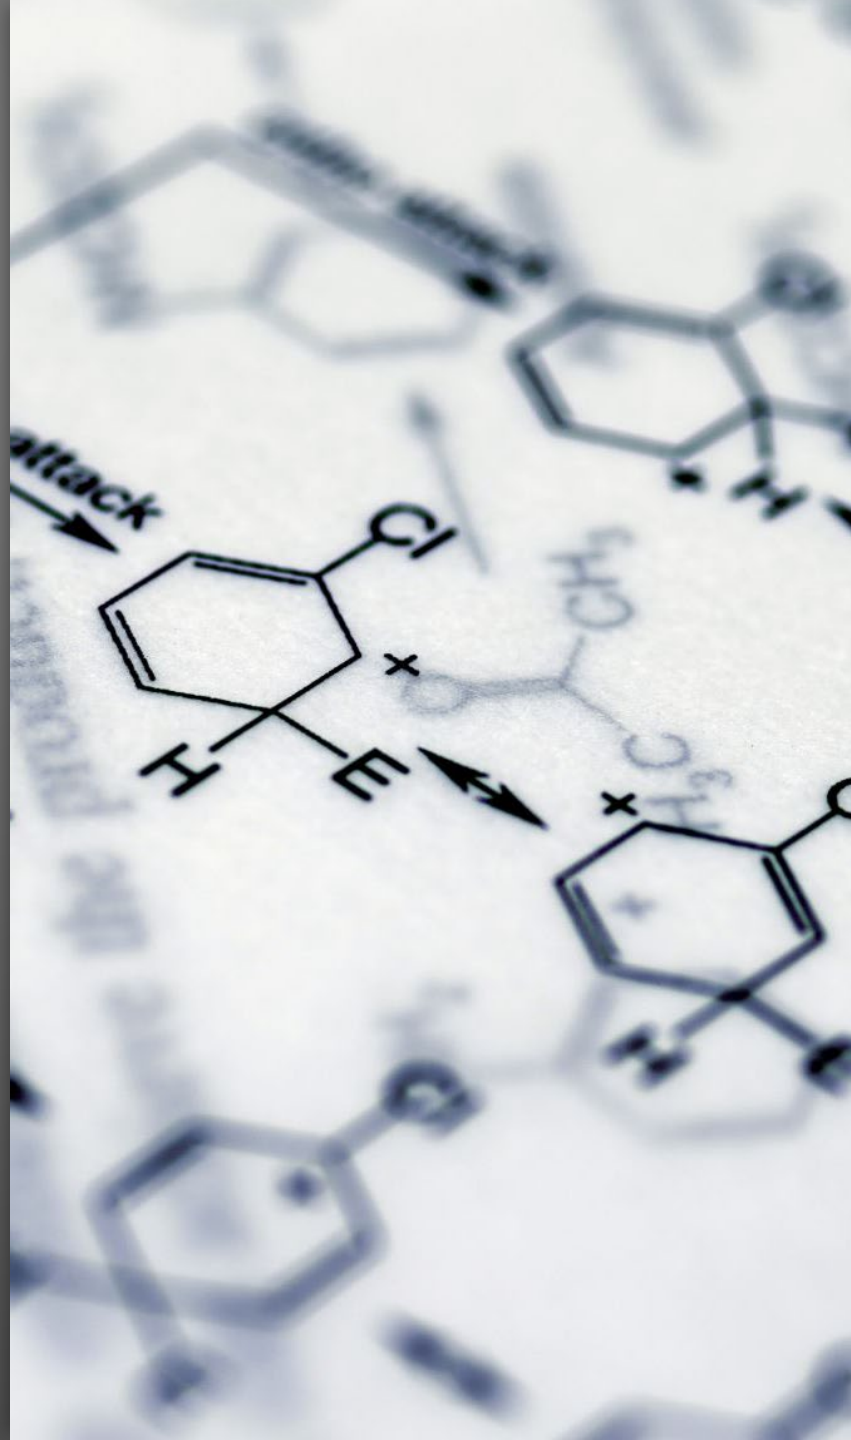

Primary Benefits: Regulates immune response, supporting faster recovery from infections and stress

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 20mg

# EIPTHALON

---

Known Brand: Epithalon

---

Intended Use: Longevity, sleep support

---

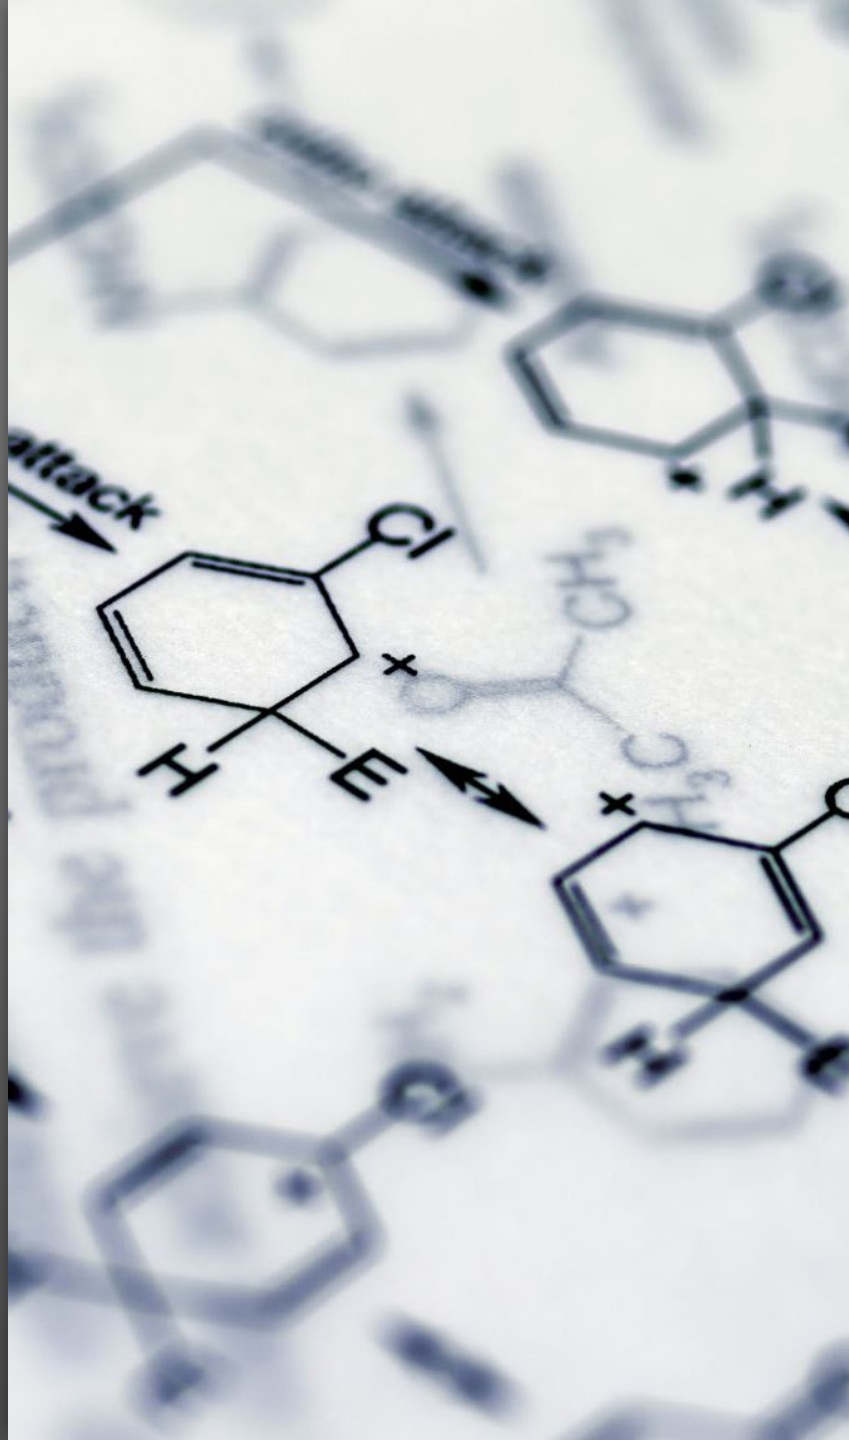

Primary Benefits: Activates telomerase, normalises circadian rhythm and bolsters antioxidant defenses

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 10mg

# GHK-CU

---

Known Brand: N/A

---

Intended Use: Skin & hair regeneration

---

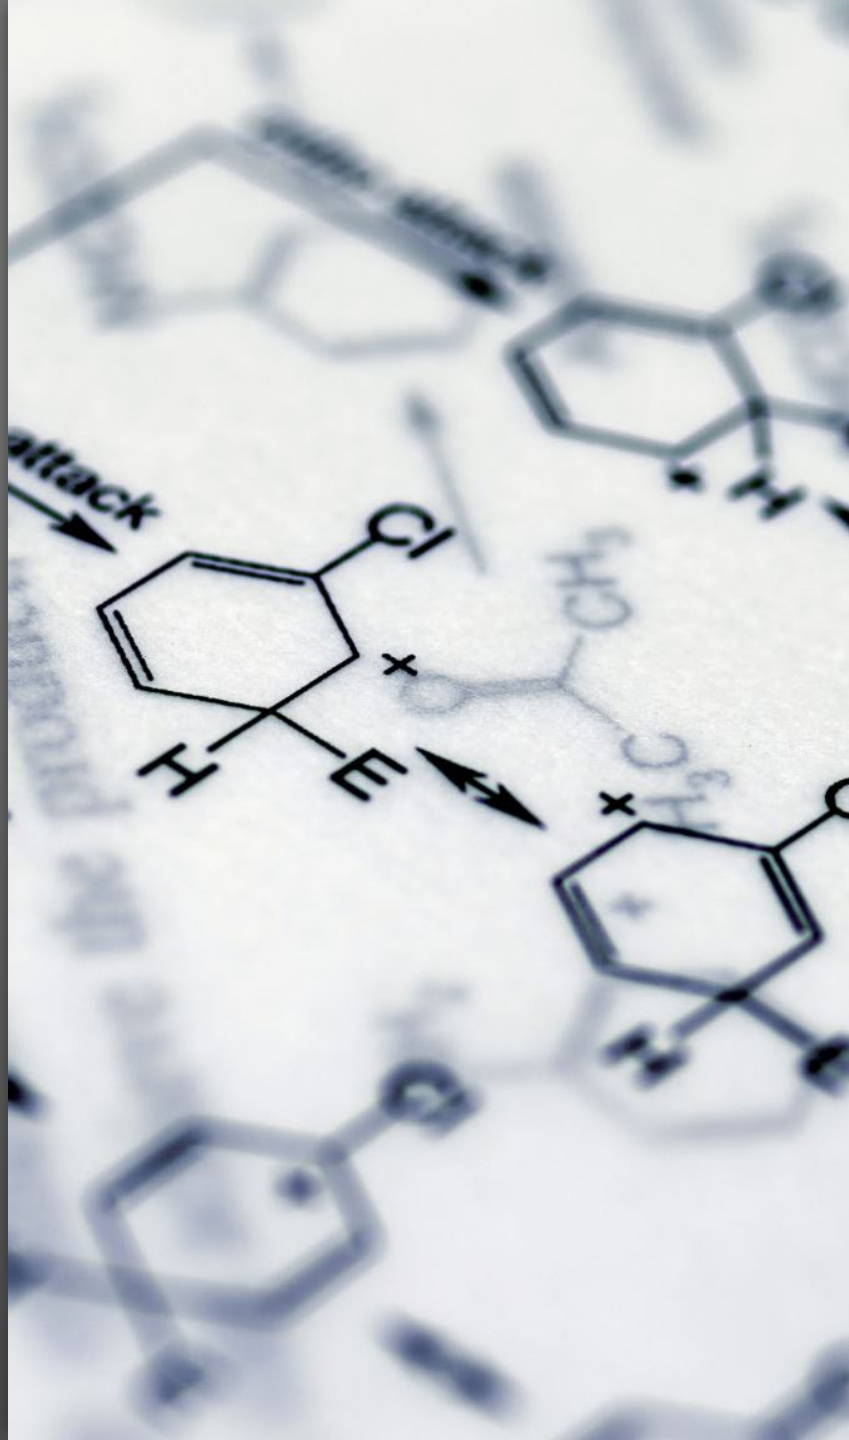

Primary Benefits: Copper-binding tripeptide that boosts collagen, angiogenesis and follicle health

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 50mg, 75mg, 100mg

# SERMORELIN

---

Known Brand: Geref

---

Intended Use: GH diagnostic & therapy

---

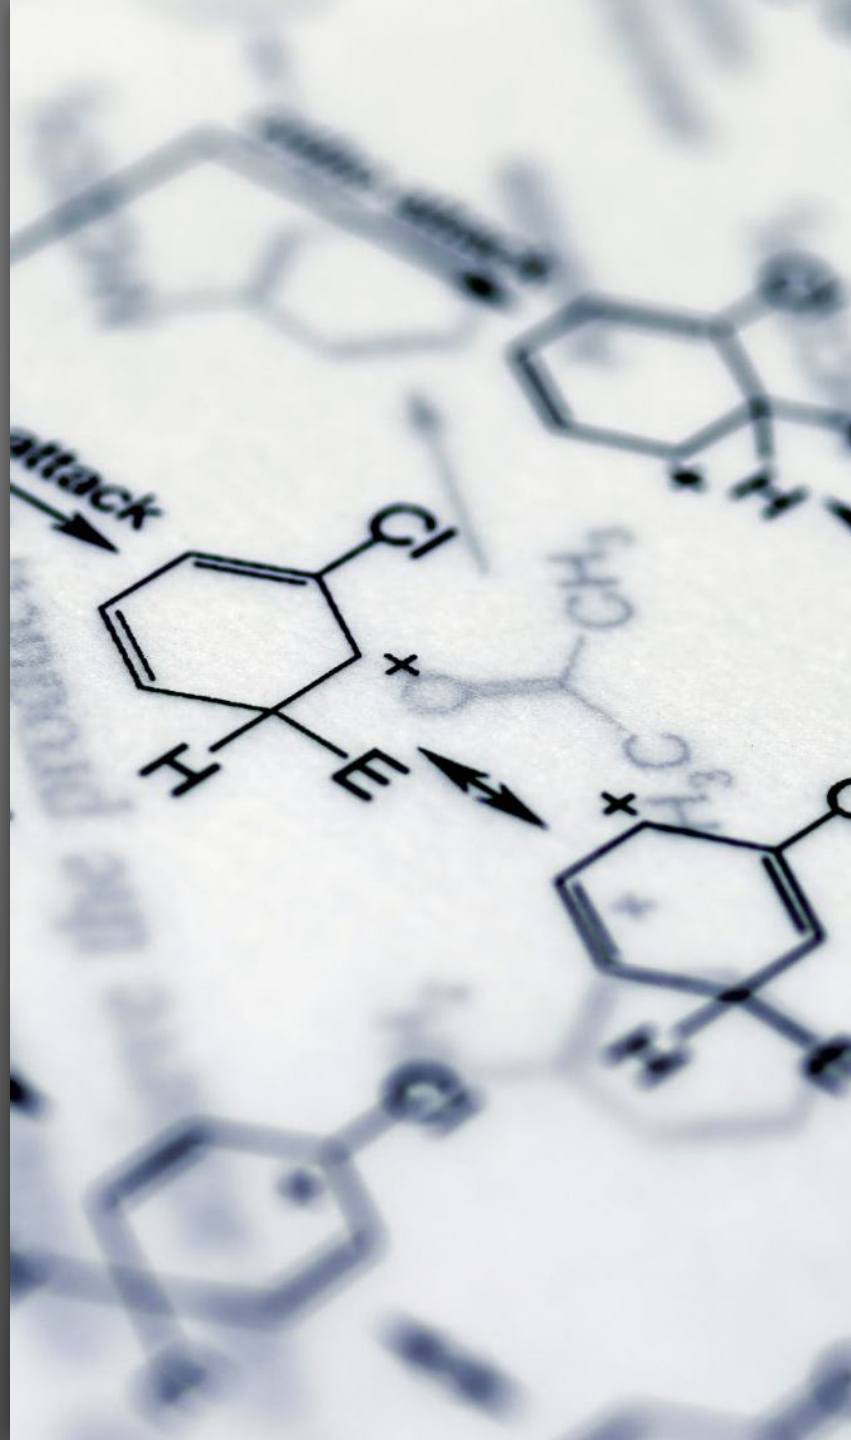

Primary Benefits: Releases pituitary GH improving body composition, sleep and recovery

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# CARTALAX

---

Known Brand: Cartalax

---

Intended Use: Joint & cartilage support

---

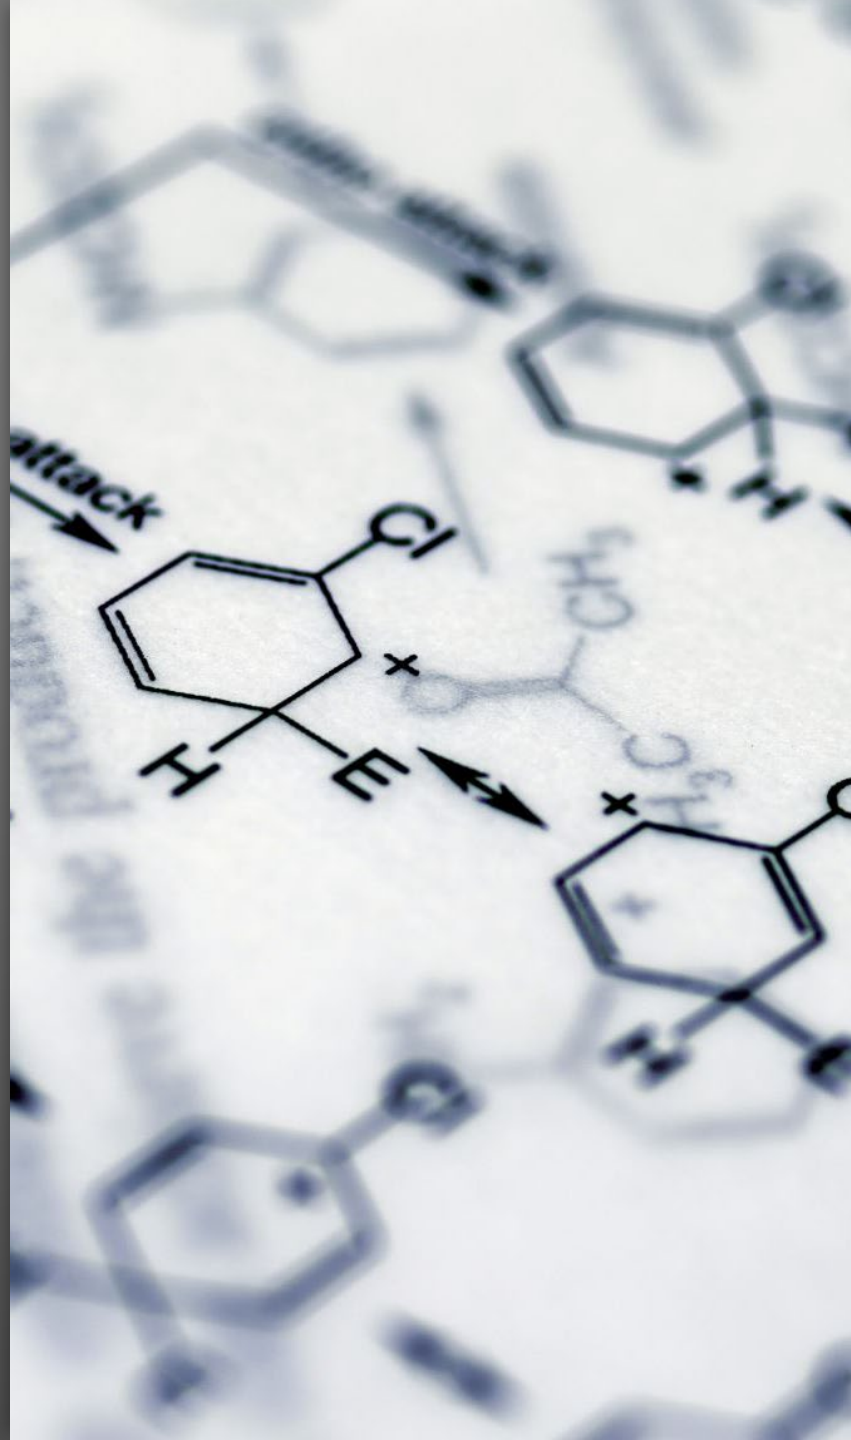

Primary Benefits: Peptidic bioregulator targeting chondrocytes to maintain healthy cartilage structure

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 20mg

# TESTAGEN

---

Known Brand: N/A

---

Intended Use: Male reproductive health

---

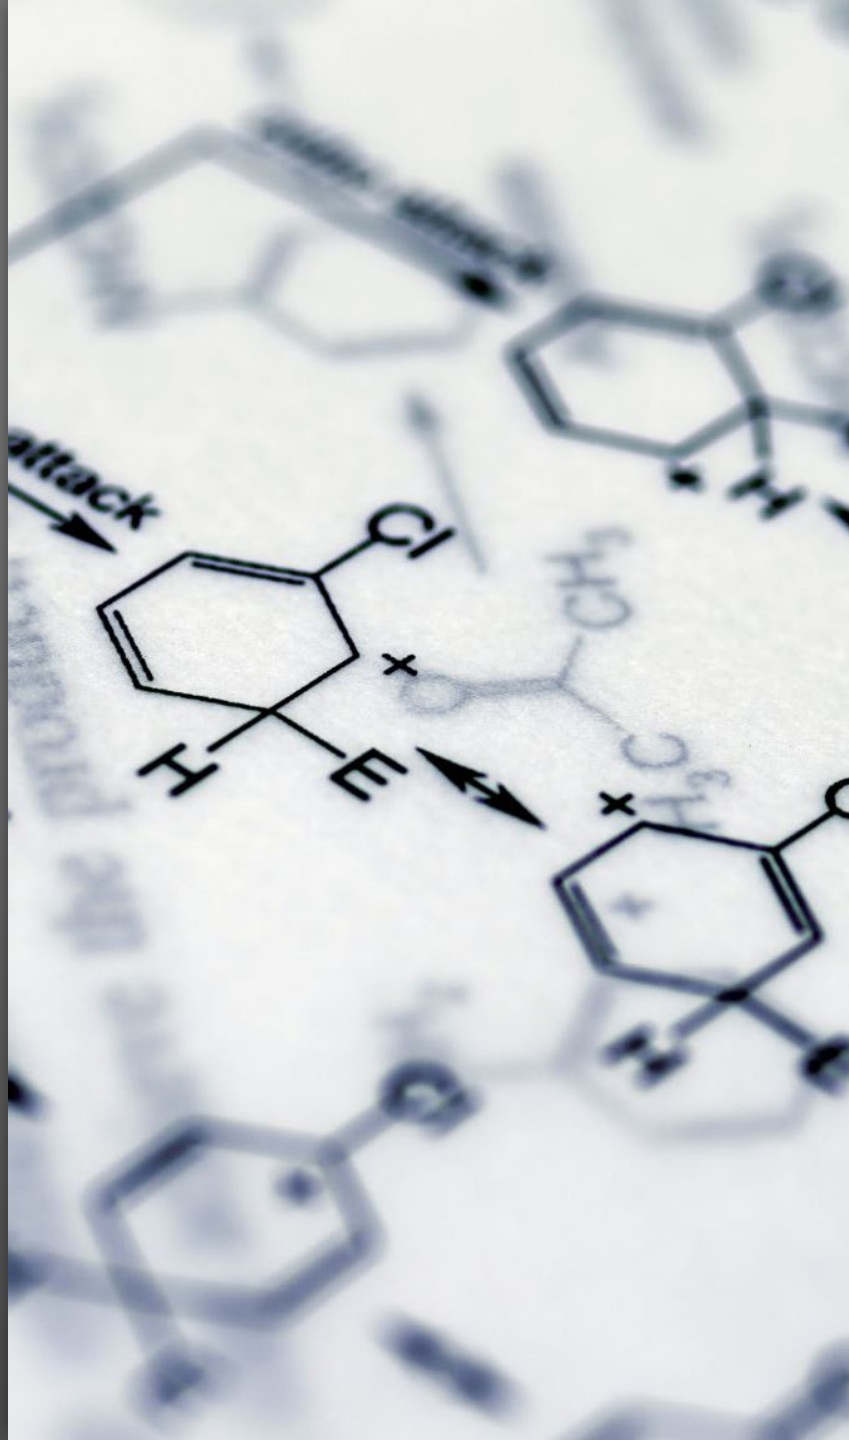

Primary Benefits: Supports testicular peptide balance, potentially improving androgen production

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 20mg

# VESUGEN

---

Known Brand: N/A

---

Intended Use: Vascular health

---

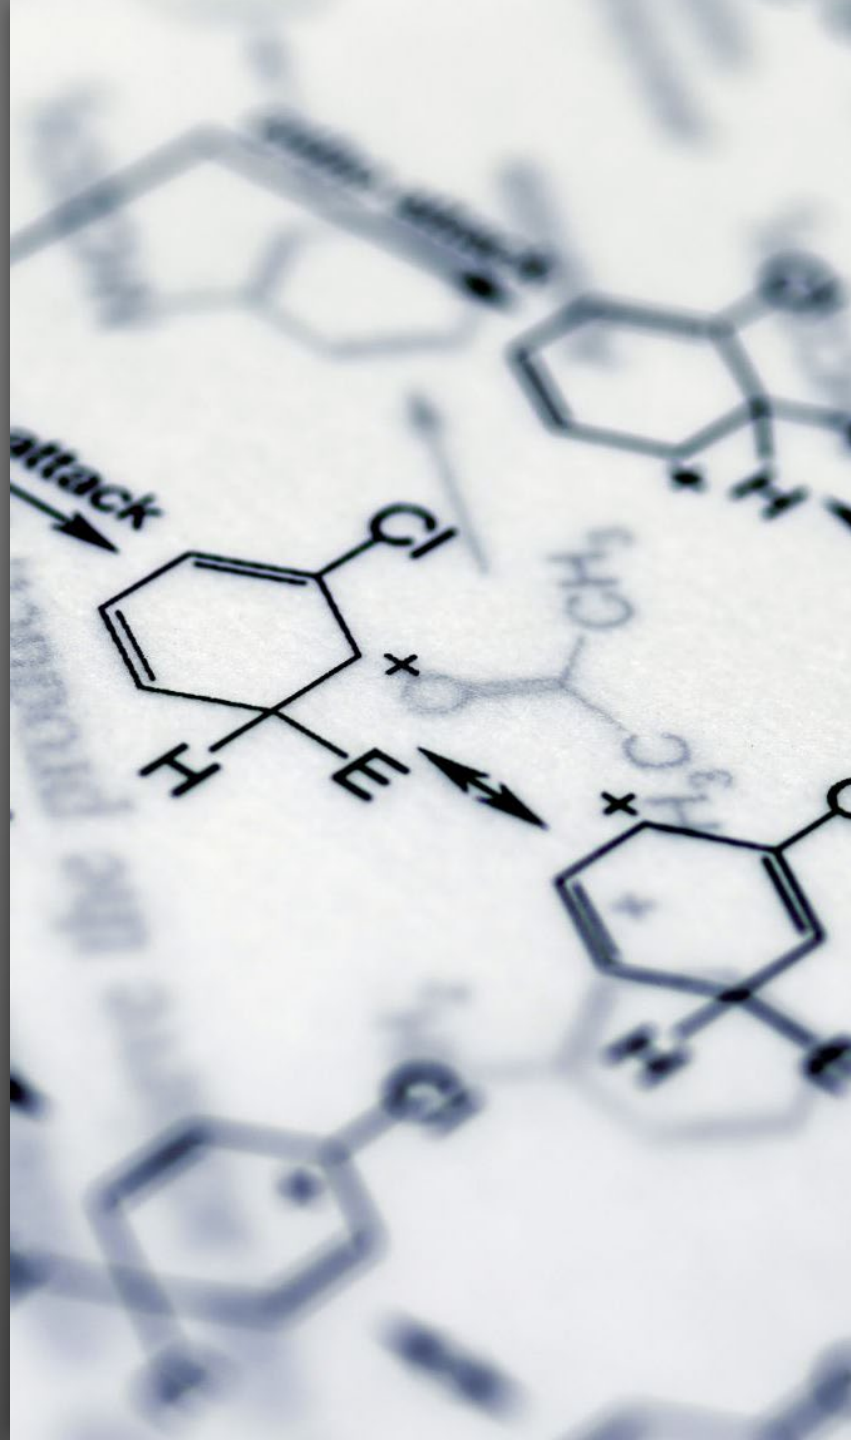

Primary Benefits: Short peptide complex promoting endothelial repair and vascular elasticity

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 20mg

# MOTS-C

---

Known Brand: N/A

---

Intended Use: Metabolic enhancement

---

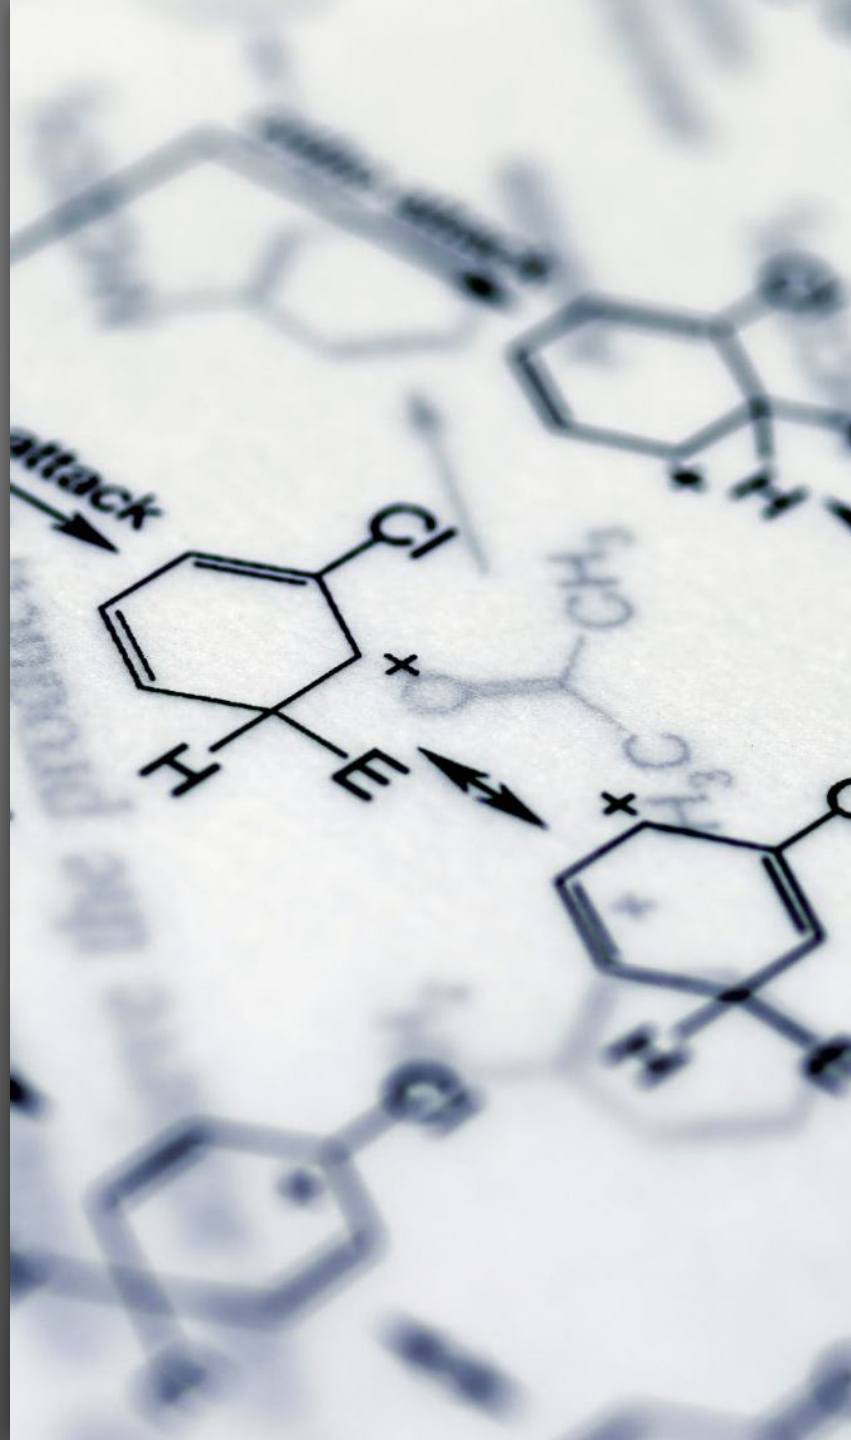

Primary Benefits: Mitochondrial-derived peptide improving insulin sensitivity and endurance

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 10mg

# PINEALON

---

Known Brand: N/A

---

Intended Use: Neuroprotection

---

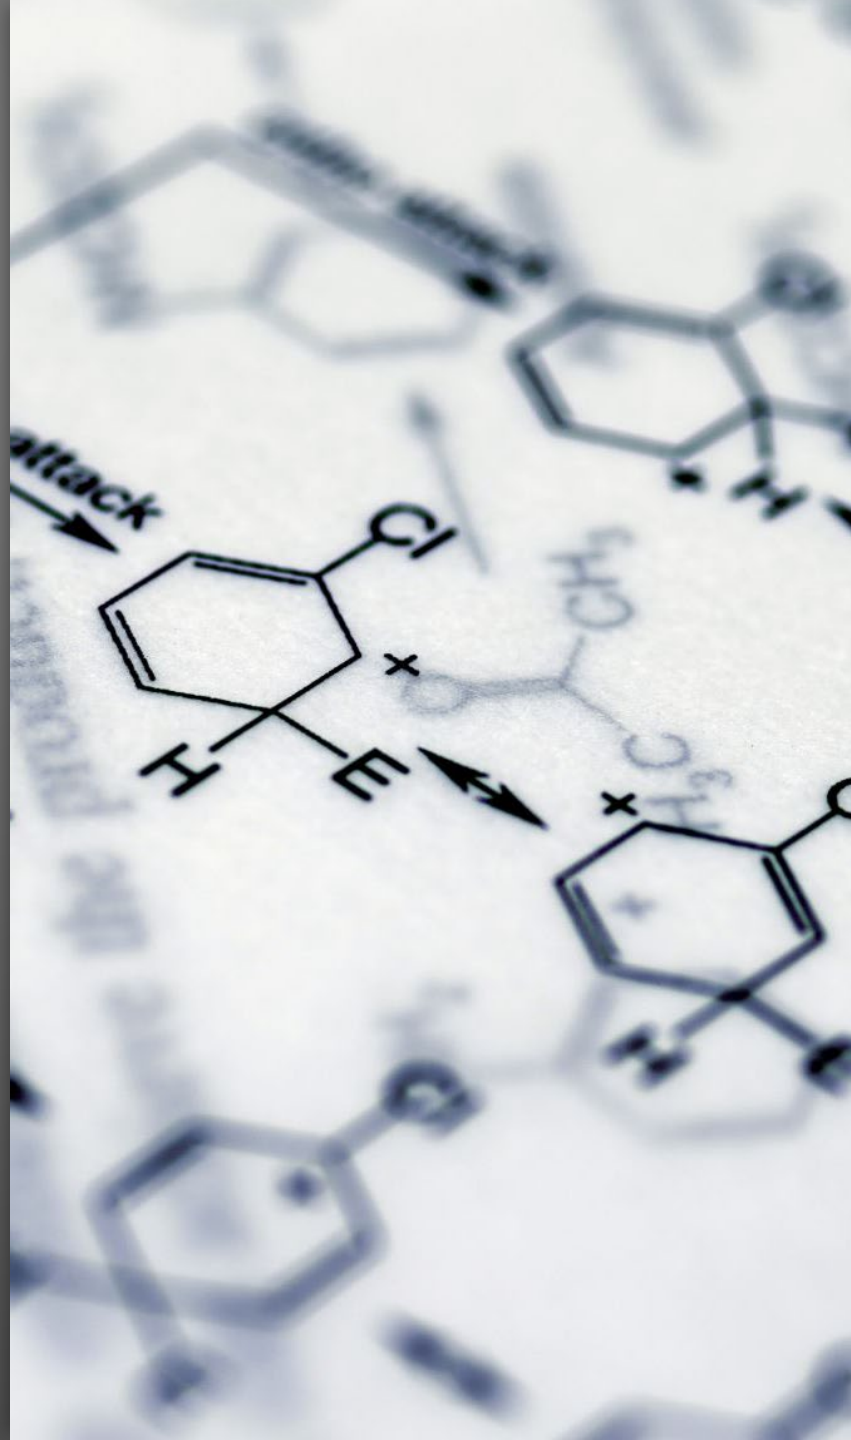

Primary Benefits: Tripeptide bioregulator that enhances cognitive performance and sleep quality

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 20mg

# LL-37

---

Known Brand: N/A

---

Intended Use: Antimicrobial & wound care

---

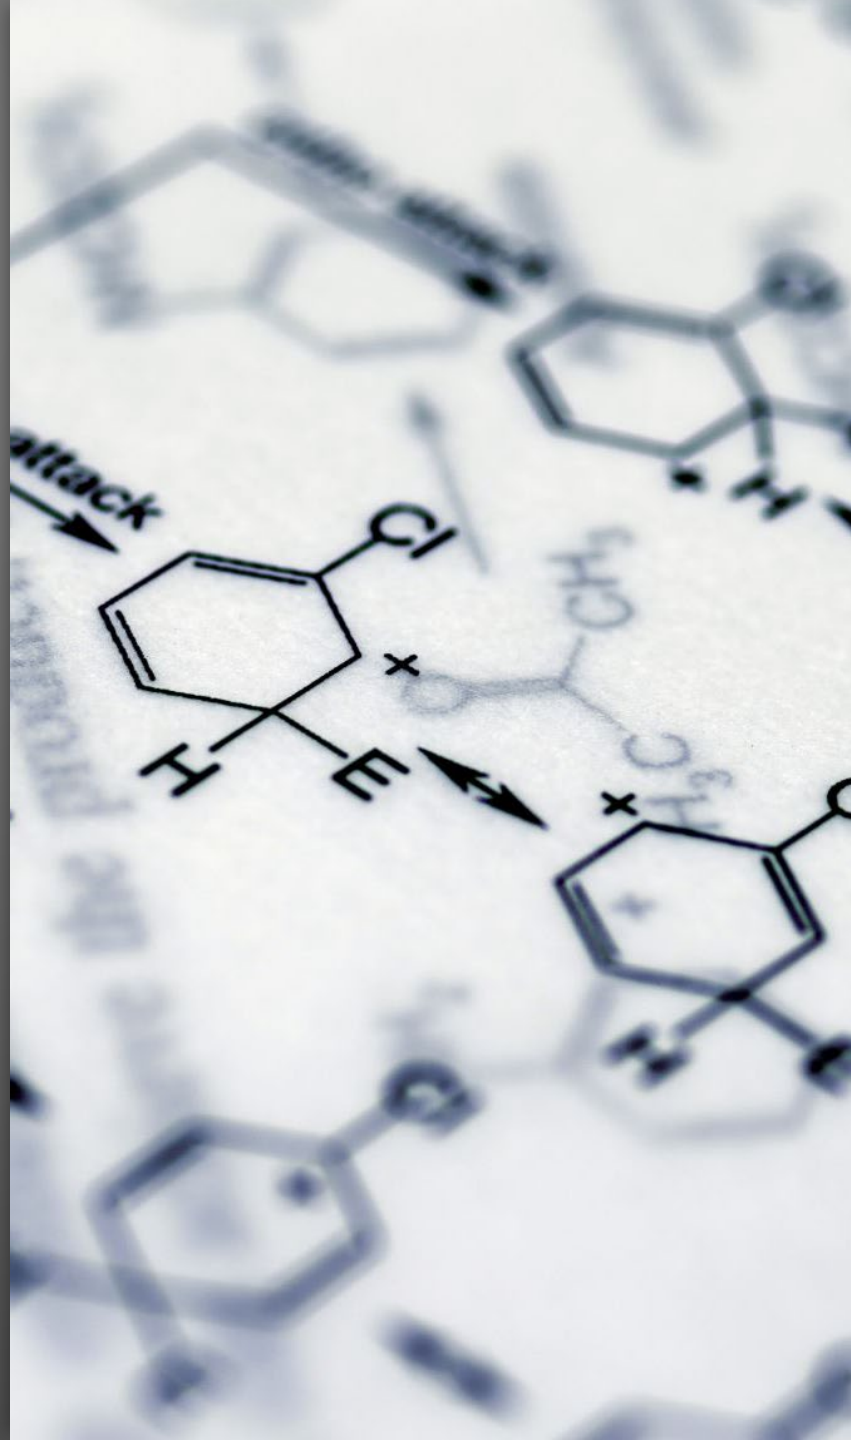

Primary Benefits: Broad-spectrum antimicrobial peptide that also speeds epithelial regeneration

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 10mg

# KISSPEPTIN

---

Known Brand: N/A

---

Intended Use: Fertility modulation

---

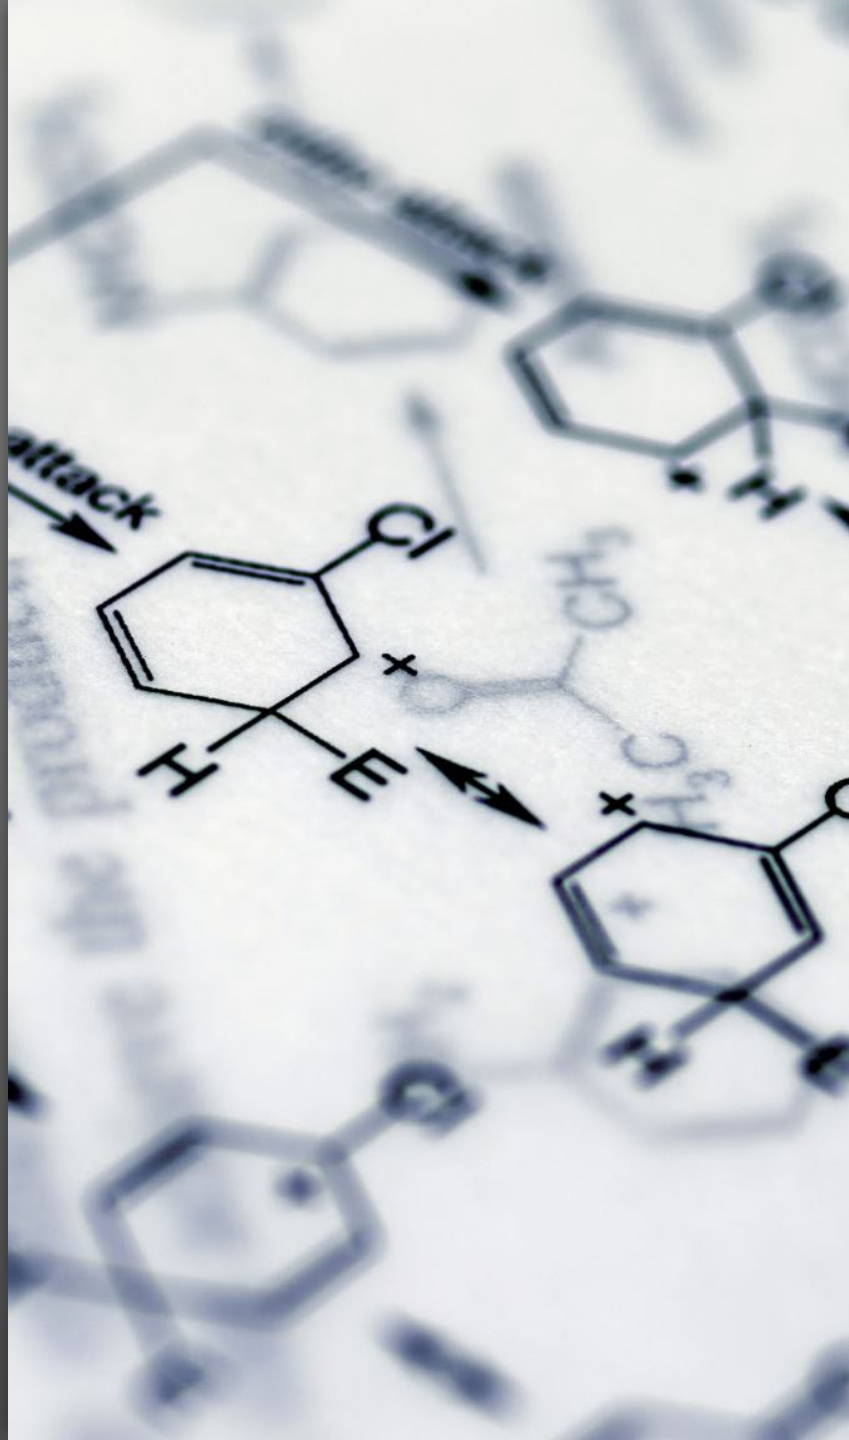

Primary Benefits: Stimulates GnRH release to regulate reproductive hormone axis

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# AOD 9604

---

Known Brand: N/A

---

Intended Use: Fat loss

---

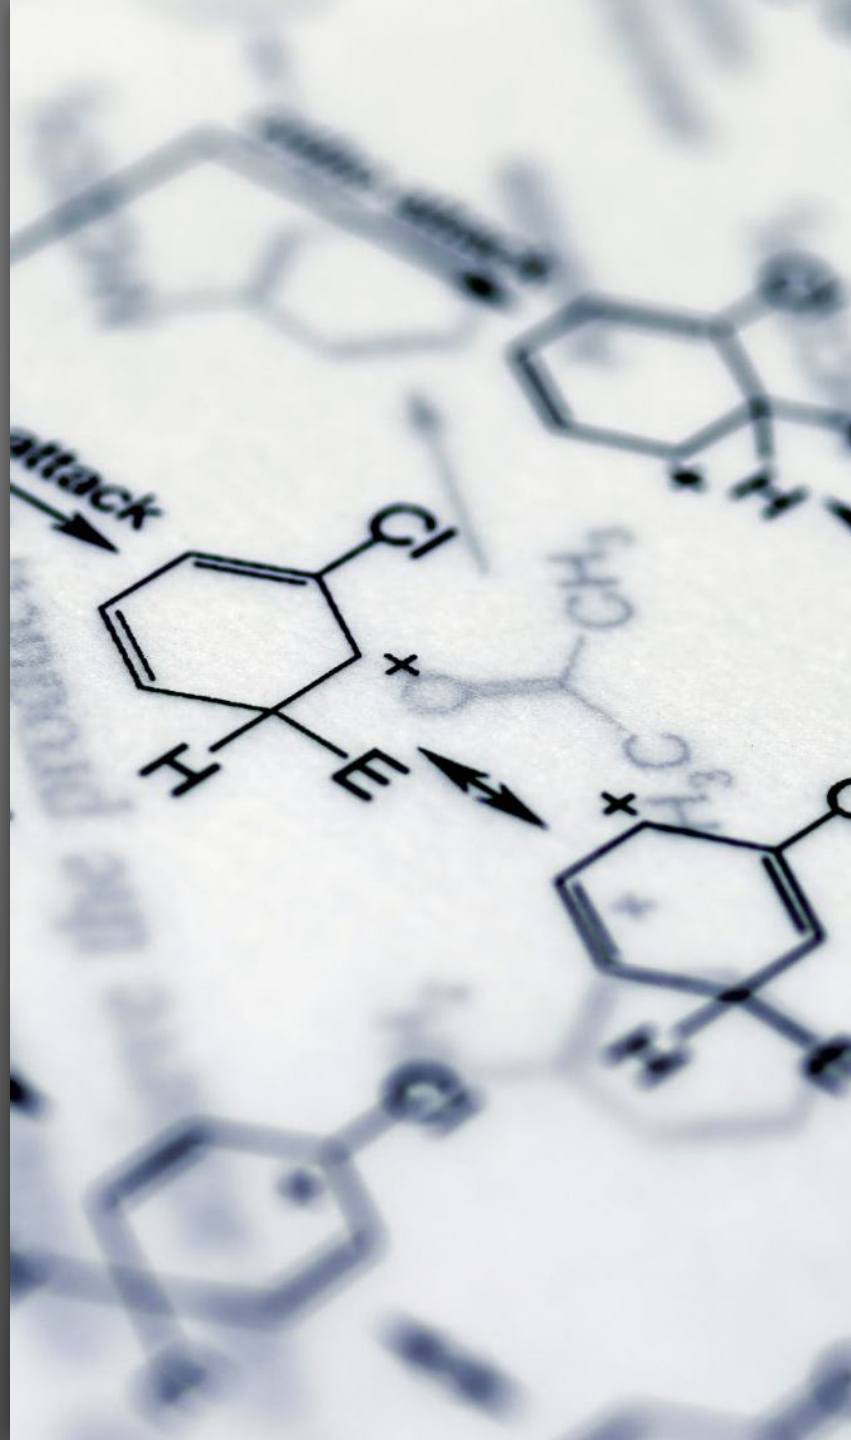

Primary Benefits: Fragment of hGH that enhances lipolysis and inhibits lipogenesis without affecting glucose

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# GHRP-2

---

Known Brand: N/A

---

Intended Use: Growth hormone stimulation

---

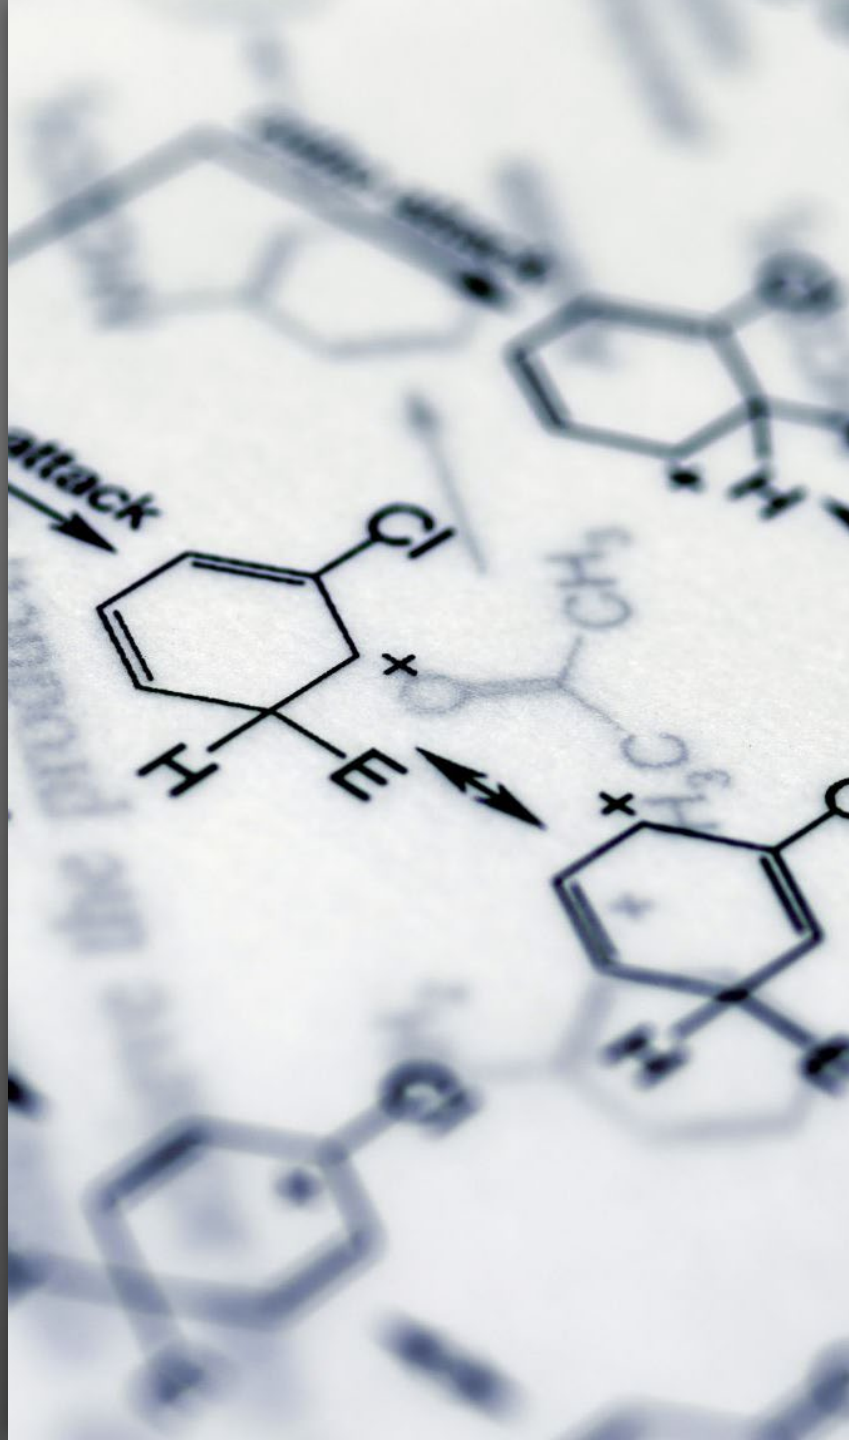

Primary Benefits: Potent GHRP elevating GH/IGF-1 for improved body composition and recovery

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 5mg

# GHRP-6

---

Known Brand: N/A

---

Intended Use: GH release & appetite

---

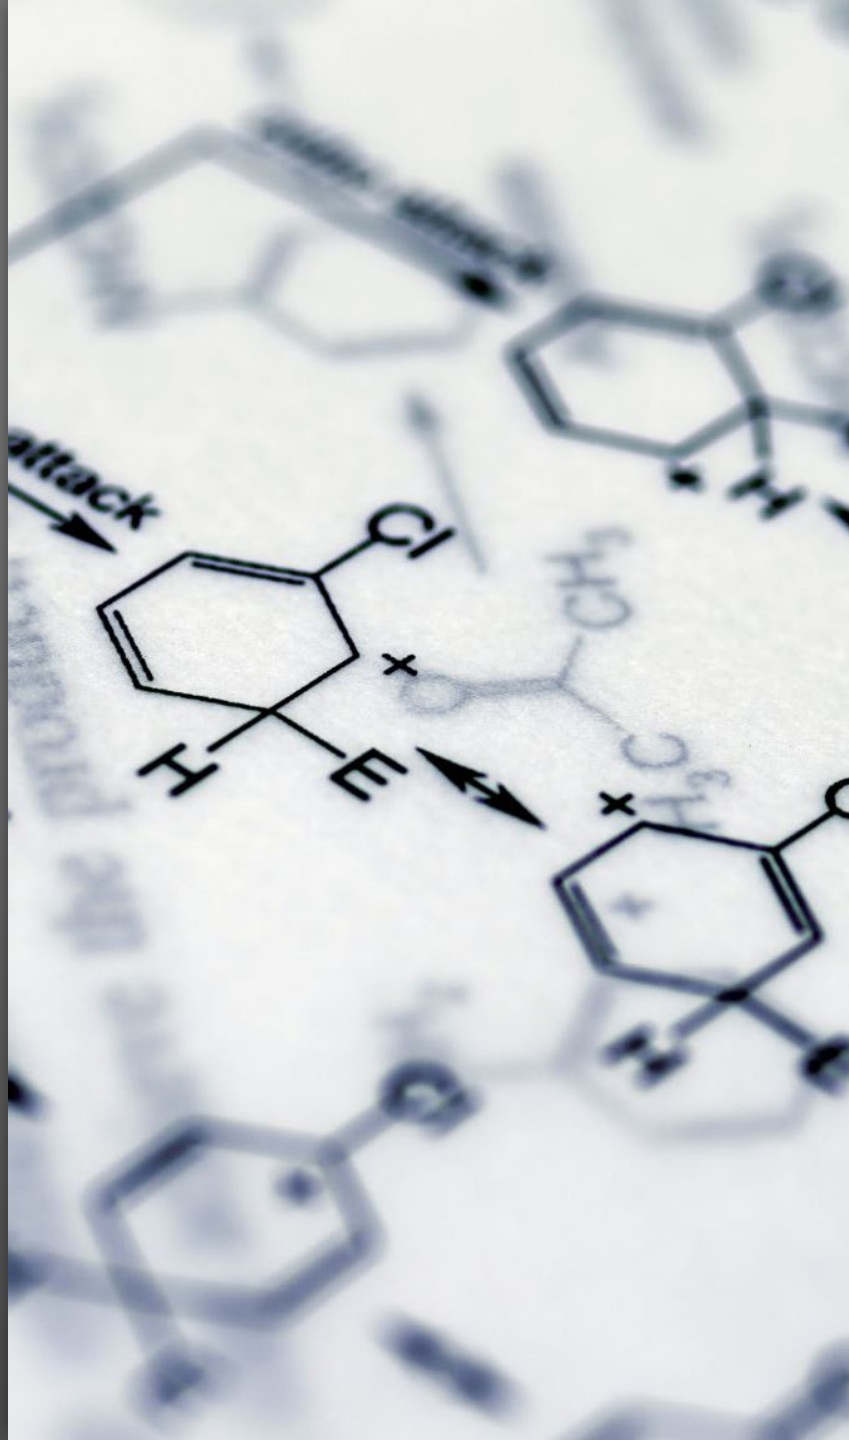

Primary Benefits: Boosts GH pulsatility and may increase appetite aiding mass gain phases

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 5mg

# GONADORELIN

---

Known Brand: Factrel

---

Intended Use: Diagnostic gonadotropin release

---

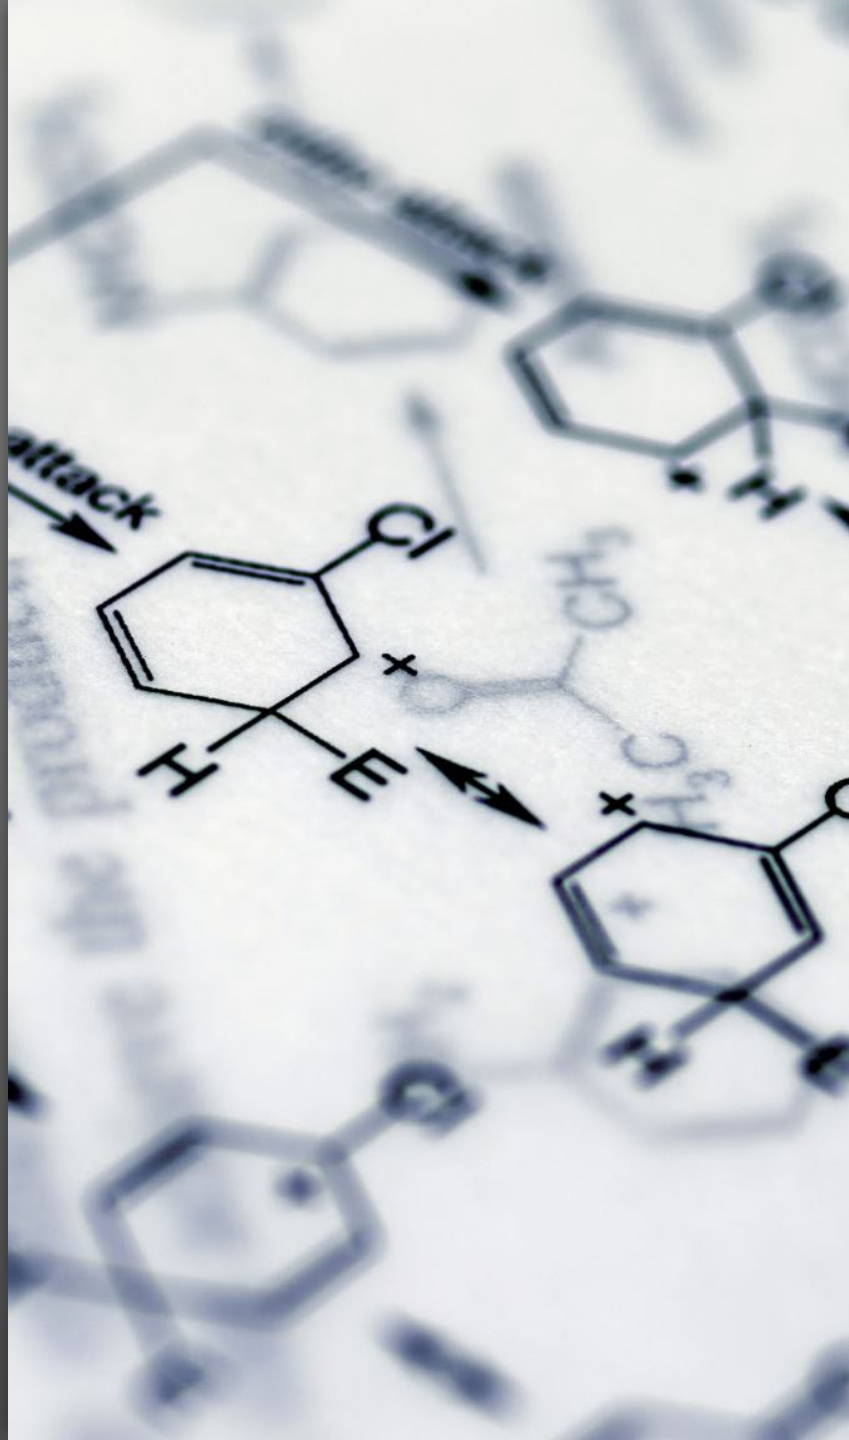

Primary Benefits: Triggers LH/FSH surge for fertility evaluation and supports hormone balance protocols

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# HEXARELIN

---

Known Brand: N/A

---

Intended Use: GH stimulation

---

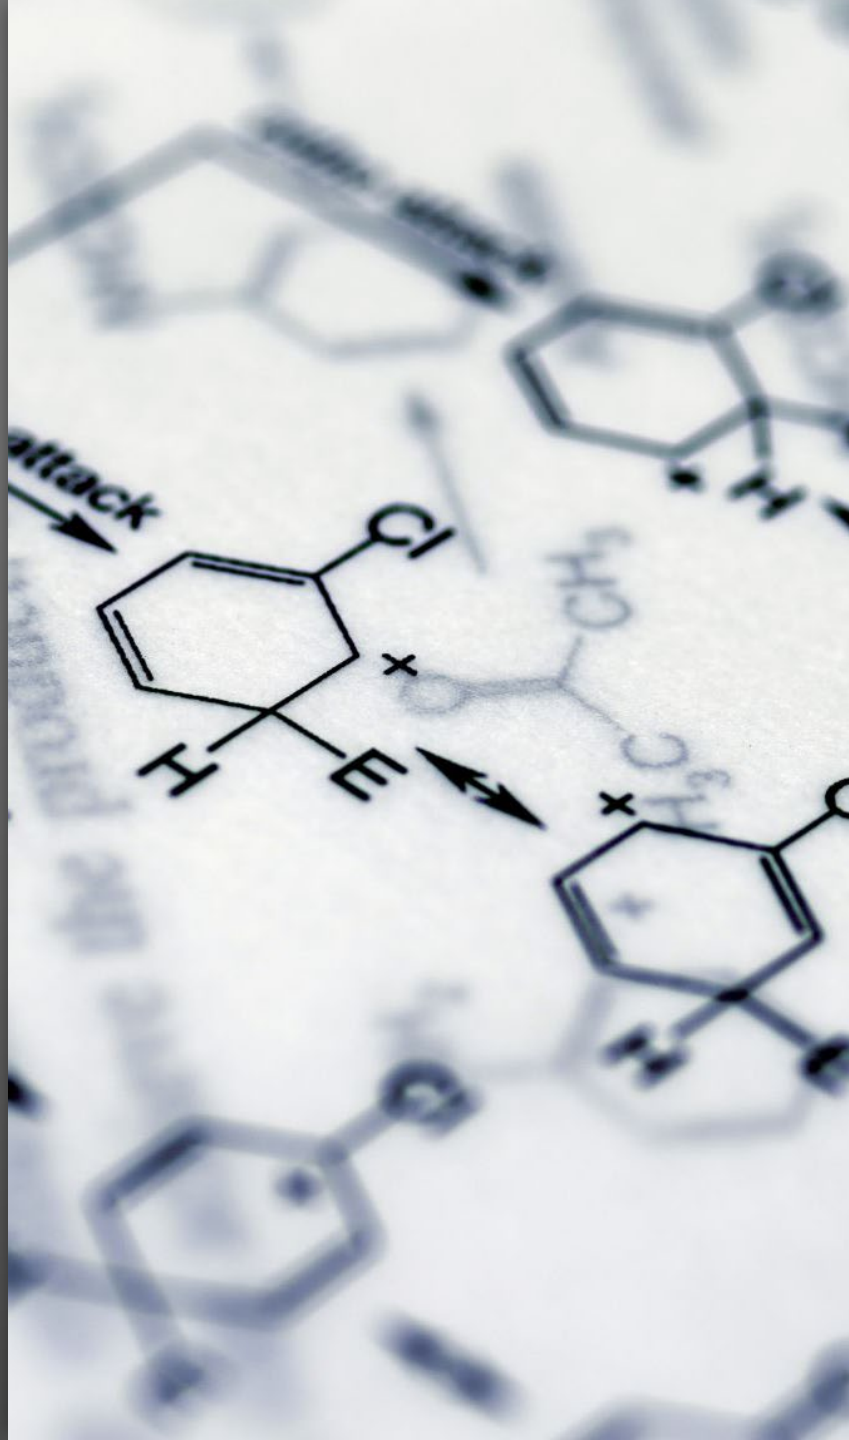

Primary Benefits: Strong GHRP noted for robust GH release and cardioprotective properties

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 5mg

# IGF-1 LR3

---

Known Brand: N/A

---

Intended Use: Muscle hypertrophy

---

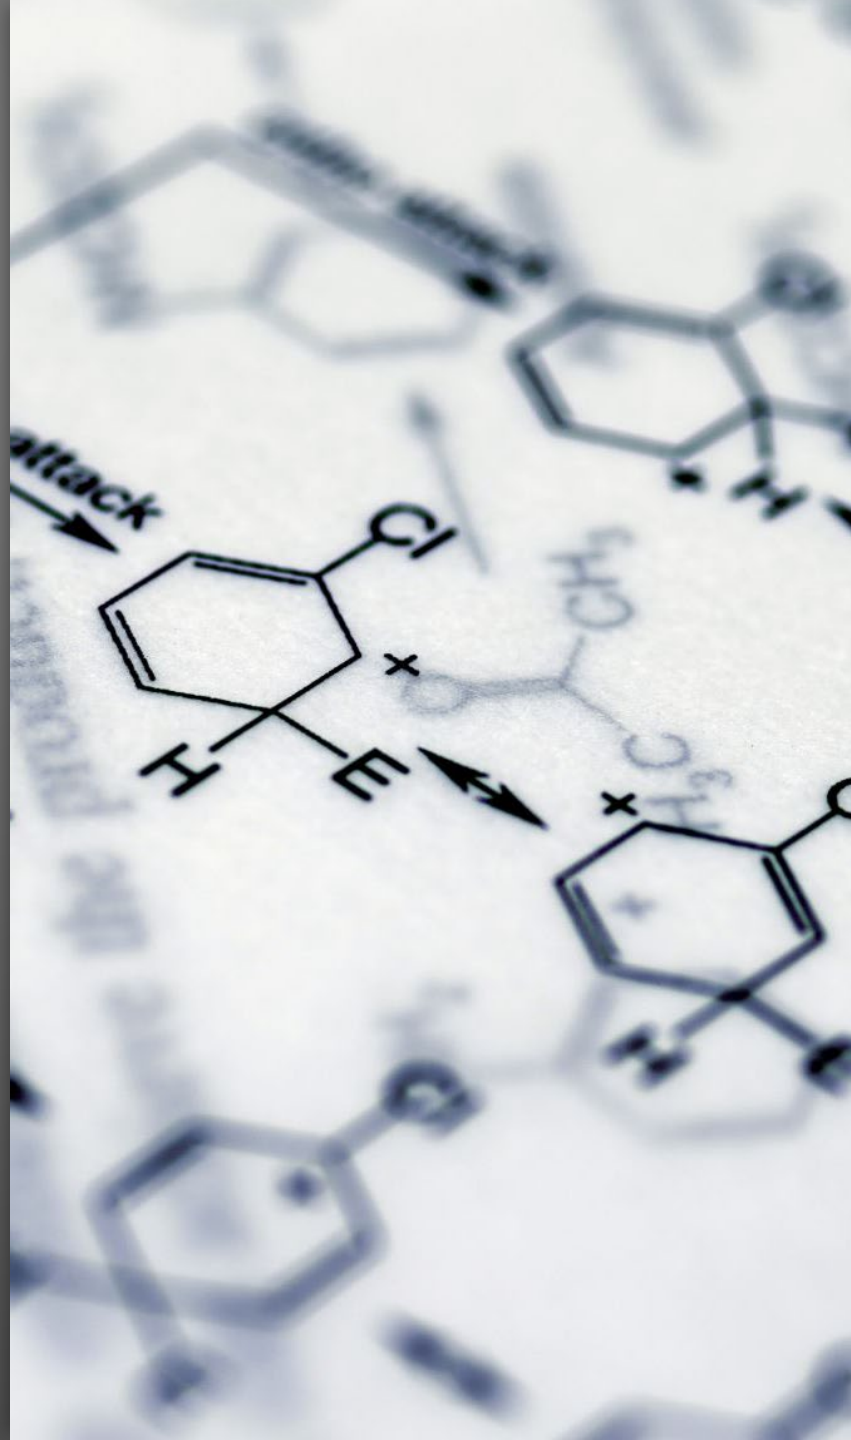

Primary Benefits: Analog of IGF-1 with extended half-life enhancing protein synthesis and recovery

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 1mg

# KPV

---

Known Brand: N/A

---

Intended Use: Anti-inflammatory

---

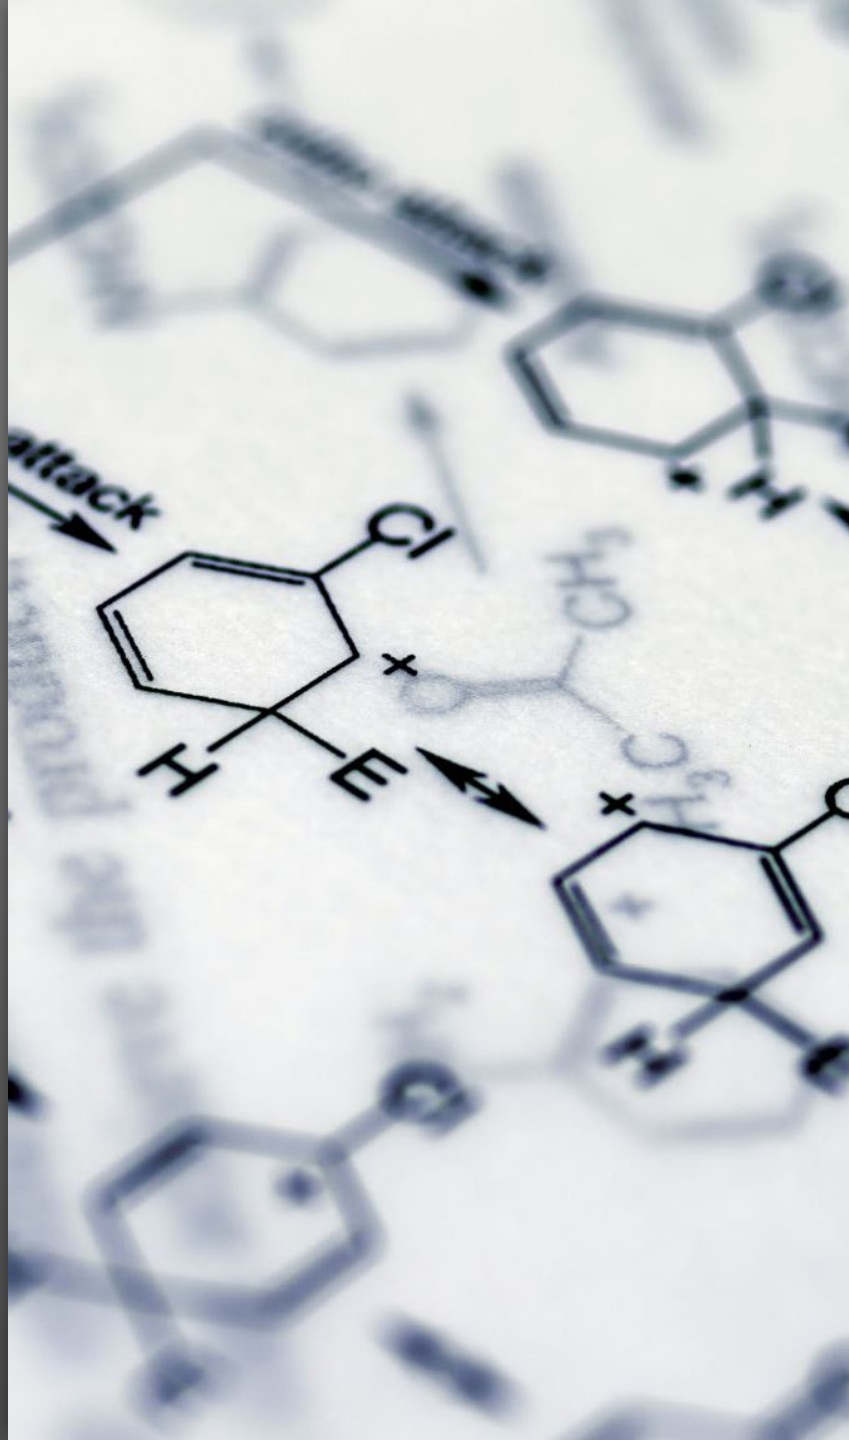

Primary Benefits: Melanocortin fragment reducing gut & systemic inflammation and supporting skin healing

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 5mg

# OXYTOCIN

---

Known Brand: Pitocin

---

Intended Use: Bonding & postpartum care

---

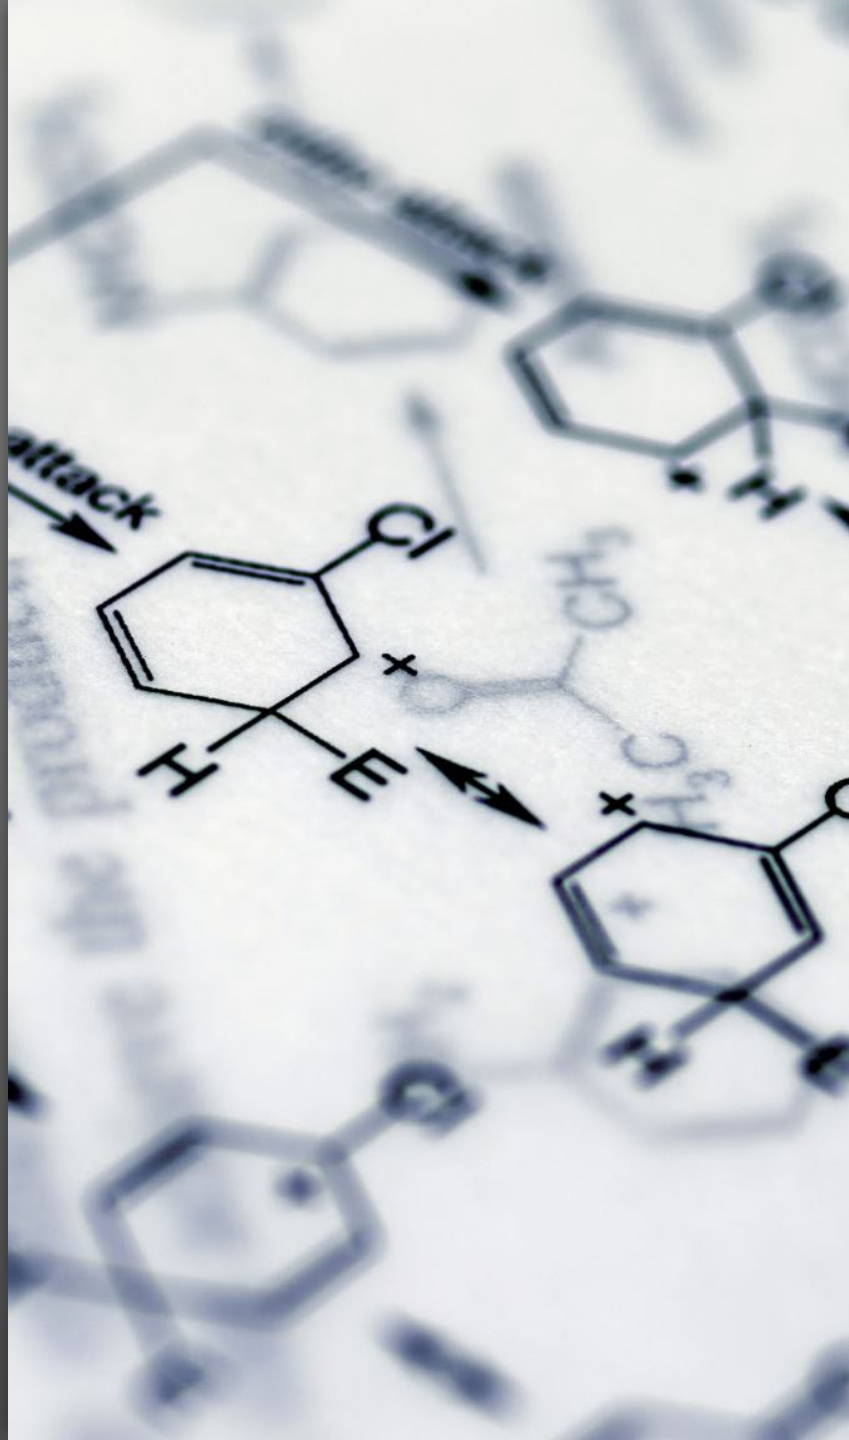

Primary Benefits: Neuropeptide promoting social bonding, stress relief and uterine contractions

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 10mg

# PE-22-28

---

Known Brand: N/A

---

Intended Use: Neurogenesis support

---

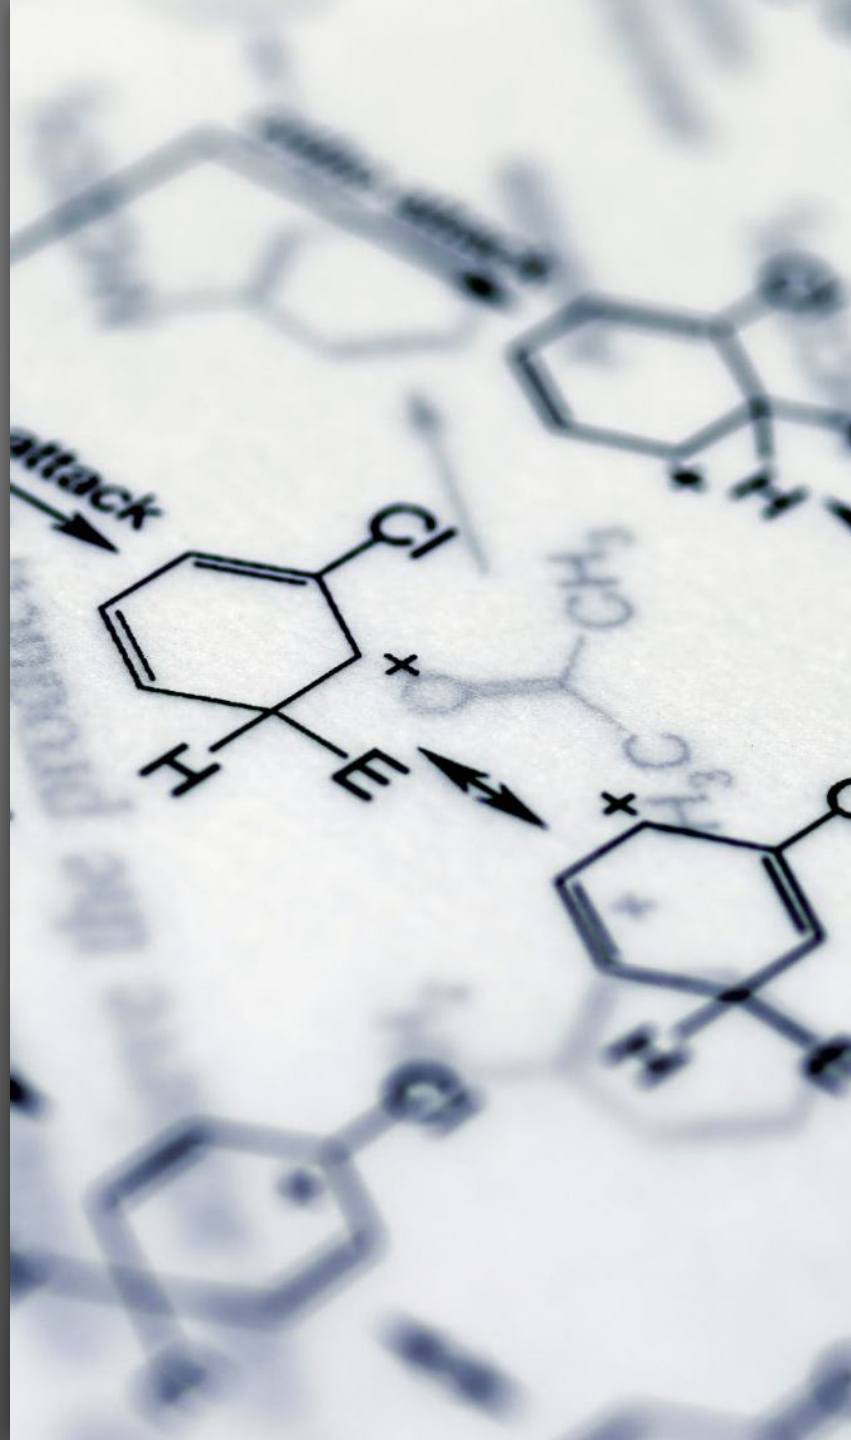

Primary Benefits: Brain-peptide fragment shown to enhance BDNF and mood in preclinical studies

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 10mg

# SS-31

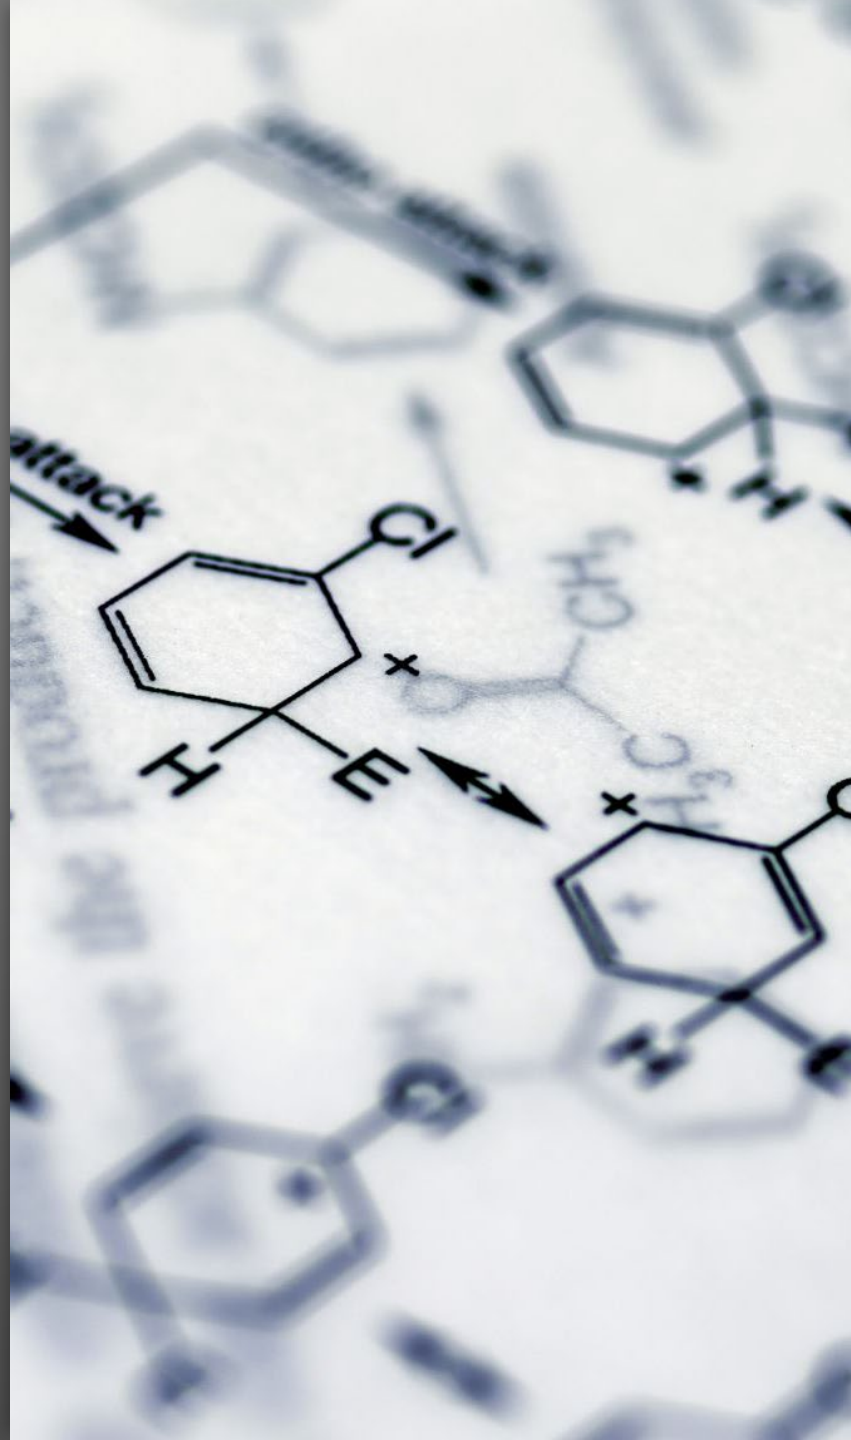

Known Brand: Elamipretide

Intended Use: Mitochondrial therapy

Primary Benefits: Targets cardiolipin to restore mitochondrial function, beneficial for muscular & ocular health

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

Weights: 10mg, 15mg

# SELANK

---

Known Brand: N/A

---

Intended Use: Anxiolytic & cognition

---

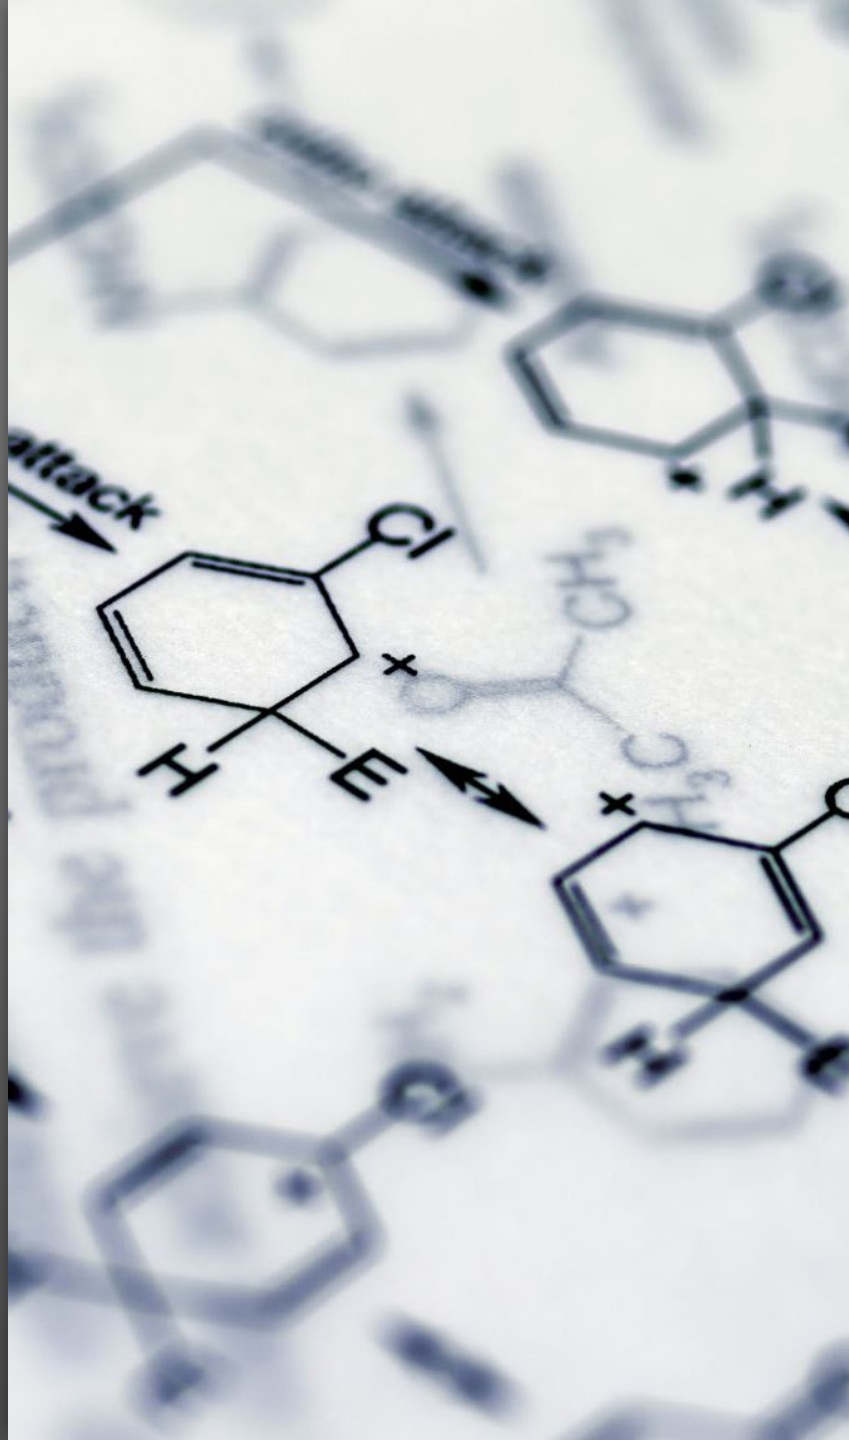

Primary Benefits: Synthetic tuftsin analog reducing anxiety and improving memory

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 5mg, 10mg

# SEMAX

---

Known Brand: N/A

---

Intended Use: Cognitive enhancement

---

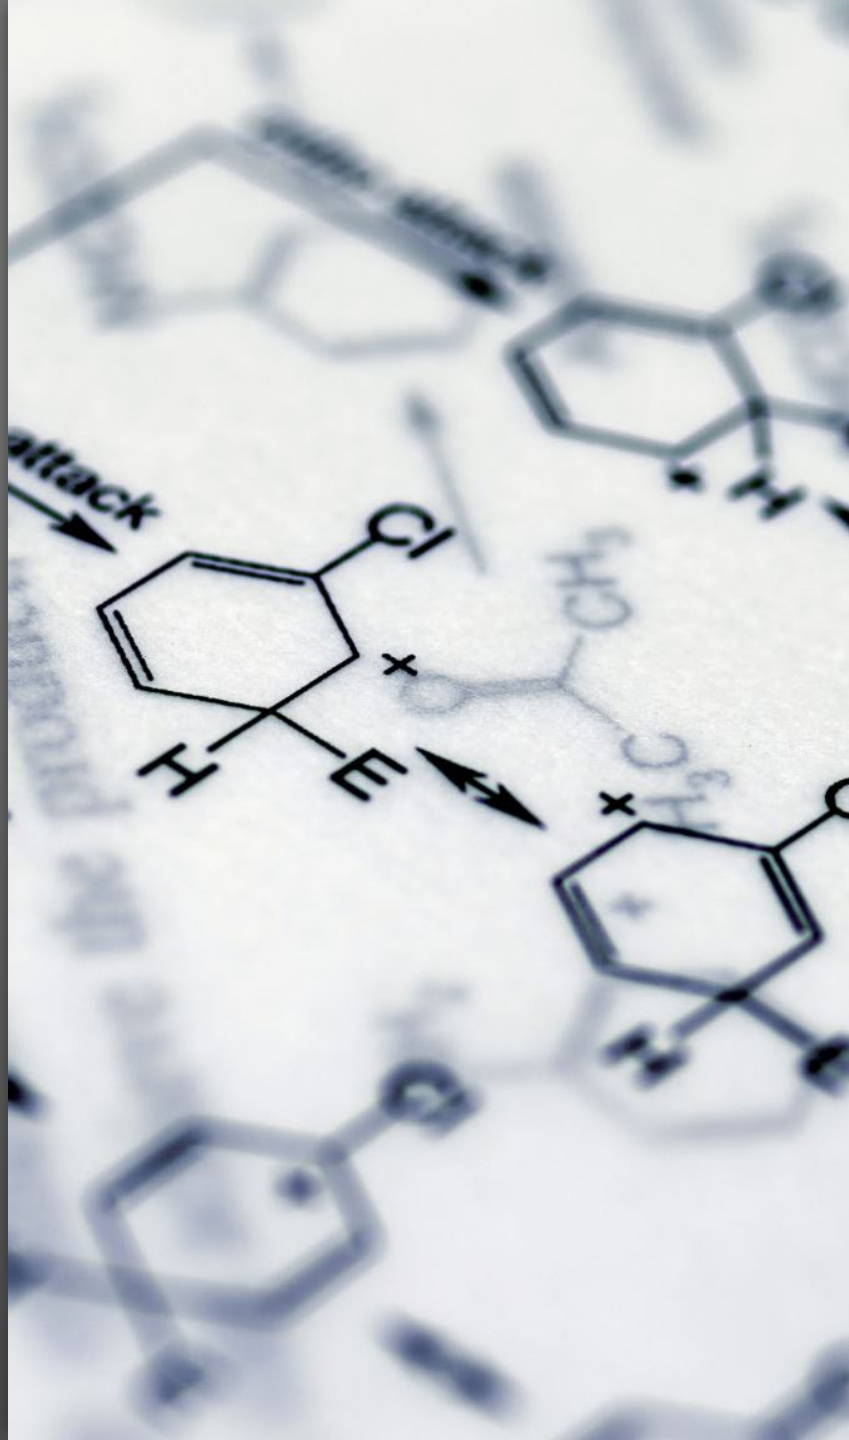

Primary Benefits: Heptapeptide derivative boosting BDNF, focus and neuroprotection

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weight: 30mg

# GLUTATHIONE

---

Known Brand: N/A

---

Intended Use: Detox & antioxidation

---

Primary Benefits: Master antioxidant replenishing cellular GSH levels, supporting immunity and skin tone

---

Form: Lyophilized, freeze-dried for maximum stability, potency, and purity, ensuring long-term integrity until reconstitution.

---

Weights: 600mg, 1500mg
